PROFILE

A fresh graduate from Setia Budi University's Pharmacist Professional Program with various internship experiences in both clinical and industrial pharmacy for the past 1 year. I also actively participated in several organization and social activities that have helped me develop teamwork skills and build work-relationships. Eager to launch my career, I am specifically drawn to Quality Assurance, Quality Control, and Production role in the pharmaceutical industry. I had industrial pharmacy internship experience in production department, so I want to use my knowledge and interpersonal skills to contribute to ensuring the production of high-quality and safe pharmaceutical products.

SKILLS

Hard Skill :

1. Understanding BPOM regulations and Good Manufacturing Practice (GMP) aspects
2. Understanding the concepts of analytical instruments such as HPLC, GC, UV-Vis, and FTIR
3. Understanding and mastering drug stability test data and sampling systems
4. Proficiency in documentation and production process record-keeping
5. Understanding validation and qualification concepts
6. Understanding Total Productive Maintenance (TPM)
7. Ability to operate computers and supporting software (MS Word, PowerPoint, Excel)

Soft Skill :

1. Teamwork
2. Leadership
3. Detail-Oriented
4. Analytical Thinking
5. Adaptability
6. Problem-Solving
7. Communication
8. Time Management
9. Creativity
