Gamping, Sleman, Yogyakarta

Pharmacist with experience as a Laboratory Teaching Assistant in pharmaceutical formulation and analysis, along with a solid understanding of CPOB and CDOB standards. Experienced in diverse pharmaceutical internships across manufacturing, distribution, and pharmacy practice, with strong attention to detail and good collaboration skills. Seeking to contribute and further develop skills in industrial pharmacy and pharmaceutical manufacturing.

Education Level

Universitas Ahmad Dahlan - Yogyakarta	Jun 2025 - Sept 2026
Professional Program Pharmacist	
Universitas Ahmad Dahlan - Yogyakarta	Sep 2021 - May 2025
Bachelor of Pharmacy, GPA: 3,57/4.00 (<i>Cumlaude</i>)	
Activities: Student Executive Board of Pharmacy Faculty (BEM FF UAD), Dahlan Muda Mengabdi 2023, Academic Competition Coordinator Pharmacy Festival 2023, Head of the Pharmacy Club, and Teaching Assistant Solid, Semisolid, Liquid, and Sterile Dosage Formulation Laboratory.	

Work Experiences

PT. Zenith Pharmaceutical - Ngaliyan, Semarang	Apr 2026 - May 2026
<i>Quality Control - Praktik Kerja Profesi Apoteker (PKPA)</i>	
- Successfully compiled Product Quality Review (PQR) documentation by evaluating testing reports (LHP), physical test summaries, IPC data, and HPLC audit trails across approximately 70 production batches to generate CoAs, ensuring QA release met target schedules. - Drafted long-term and accelerated stability protocols and compiled in-use results, while gaining hands-on understanding of QC raw/packaging material workflows (incoming documentation, sampling, and release pathways) to guarantee product stability and material control. - Gained comprehensive insight into CPOB implementation by observing workflows across R&D, PPIC, Production, QC, QA, including deviation handling, retained samples, and non-conforming material management to reinforce quality system compliance.	
Dinas Kesehatan Bantul - Bantul, Yogyakarta	Mar 2026
<i>Praktik Kerja Profesi Apoteker (PKPA)</i>	
- Participated in public pharmaceutical supply chain management, gaining exposure to RKO-based procurement planning, LPPO-based planning evaluation, cold-chain storage, Puskesmas distribution, and disposal/recall procedures to maintain supply chain integrity. - Gained comprehensive insight into regional health administration and regulatory compliance, studying health facility licensing (SIPA & pharmacy permits), controlled substance (NPP) reporting to optimize regional regulatory oversight.	
Apotek Mitra Farma - Bantul, Yogyakarta	Feb 2026
<i>Praktik Kerja Profesi Apoteker (PKPA)</i>	
- Successfully delivered self-medication and prescription services through drug screening, PIO, counseling, and media-based health education, resulting in patient-centered care and improved treatment outcomes. - Executed clinical pharmacy services through Medication Therapy Monitoring (PTO) and Adverse Drug Reaction Monitoring (MESO) to identify drug-related problems (DRPs) and optimize therapeutic outcomes. - Managed supply chain and pharmacy business operations, handling ABC-based procurement, stock taking, and narcotics/psychotropics reporting to align pricing strategies, financial analysis, and licensing compliance.	
RS PKU Muhammadiyah Gamping - Sleman, Yogyakarta	Dec 2025 - Jan 2026
<i>Praktik Kerja Profesi Apoteker (PKPA)</i>	
- Delivered advanced clinical pharmacy services, conducting inpatient medication therapy reviews (PTO), medication reconciliations, MESO monitoring, discharge counseling, and health education presentations to optimize therapy safety and patient outcomes. - Supported outpatient and UDD-based inpatient dispensing operations while evaluating prescription and patient discharge wait-time quality indicators and performing aseptic dispensing to enhance operational efficiency and care quality. - Assisted hospital pharmacy inventory management through ABC/VEN analysis, inventory parameter calculations (EOQ, ROP, safety stock), and unit floor stock audits to optimize cost efficiency and emergency readiness.	
Puskesmas Kotagede 2 - Kotagede, Kota Yogyakarta	Nov 2025
<i>Praktik Kerja Profesi Apoteker (PKPA)</i>	
- Provided primary care pharmaceutical services through prescription screening, compounding, and dispensing according to national standards to promote rational drug use and medication safety. - Supported patient counseling and Drug Information Services (PIO) by educating patients on dosage, administration, side effects, and storage to enhance therapy adherence and patient safety. - Assisted in pharmaceutical inventory management through FEFO/FIFO implementation, stock audits, and LPLPO-RKO evaluation to prevent stockouts and maintain continuous drug availability.	

- Assisted in checking CDOB compliance and quality documentation, verifying SOPs to ensure daily operations met regulatory standards.
- Monitored inventory control systems via stock reconciliation, FEFO/FIFO execution, and storage condition checks to ensure product quality and stock accuracy.
- Supported pharmaceutical distribution operations by evaluating receiving, quarantine, storage, and dispatch workflows to maintain CDOB compliance and product integrity across supply chains.

- Assisted in teaching practical sessions on solid dosage form preparation and analytical evaluation using HPLC, spectrophotometry, titration, and AAS.
- Supported practical sessions on liquid and semisolid dosage forms (suspension and ointment), focusing on analytical evaluation of finished products using HPLC and titration methods.
- Guided students in sterile dosage form preparation and quality testing to ensure compliance with pharmaceutical standards.
- Assisted in learning evaluations by grading lab reports, compiling student grades, and supporting practical examinations (responsi).

Leadership Experience

- Coordinated 5-month community service program operations and scheduling, facilitating active participation and collaboration between local residents and students.
- Designed and executed program initiatives, including preparing land to cultivate 120+ medicinal plants (TOGA), developing a traditional jamu cafe, establishing a literacy corner, and formulating herbal soaps and teas.

- Designed academic competition concepts, including English debate, pharmacy olympiad, and educational video contests.
- Successfully registered over 90 participants and coordinated smooth competition execution and completed the first Pharmacy Festival Academic Competition at the Faculty of Pharmacy, Universitas Ahmad Dahlan.

- Designed syllabi for three divisions: writing, counseling, and English club
- Organized and facilitated seven sessions per division with over 60 participants according to the planned curriculum.

Award / Achievements

- **Achievements (Dahlan Muda Mengabdi) (2023):** Drafted a community service proposal on Family Medicinal Plants (TOGA) Conservation in Desa Nogotirto, which received funding from the Student Affairs and Alumni Bureau (BIMAWA) and the Ministry of Education.

Skills

- **Technical Skills:** CPOB & CDOB, Quality & Documentation, Data Management, Pharmaceutical Formulation and Analysis, and Microsoft Office (Word, Excel, PowerPoint).
- **Soft Skills:** Attention To Detail, Team Collaboration, Practical Problem Solving, and Adaptability.
