Production Planning (PPIC) - by Latih	Dec 2024

Work Experience

PT Trifa Raya Laboratories - Majalengka, West Java	May 2026 - Now
<i>Production Supervisor</i>	
- Supported the establishment of the Production Department during the start-up phase of a new pharmaceutical manufacturing facility, including preparation for GMP/CPOB certification. - Developed 15+ production SOPs covering sterile and non-sterile areas, including cleaning, waste disposal, ampoule washing, sterile mixing, and filling processes, in compliance with CPOB/GMP requirements. - Prepared production logbooks, batch record templates, and operational forms to support BPOM audit readiness - Coordinated with cross-functional departments to establish production documentation systems and workflows. - Participated in the development of production systems and documentation during the facility start-up phase.	
Puskesmas Tebet - South Jakarta	Apr 2025
<i>Pharmacist Internship</i>	
- Involved in the review and dispensing of prescriptions, providing Drug Information Services (PIO), as well as counseling activities for tuberculosis patients under the supervision of a pharmacist to ensure safe and rational drug use. - Participated in educational activities related to hypertension for geriatric patients as part of a community health promotion program. - Studied the procurement process of pharmaceutical preparations and the preparation of LPLPO to support accurate stock management and needs planning.	
RSUD Budhi Asih - East Jakarta	Feb 2025 - Mar 2025
<i>Pharmacist Internship</i>	
- Assisted in the preparation, compounding, and dispensing of pharmaceutical products under pharmacist supervision, and supported Patient Information Counseling (PIO) to ensure safe, rational, and compliant medication use. - Monitored drug therapy for patients with kidney failure and lung cancer, ensuring appropriate and effective pharmacotherapy. - Supported receiving, storage, and handling of pharmaceutical products and medical supplies in accordance with established procedures.	
PT Rajawali Nusindo Cabang Jakarta 2 - South Jakarta	Jan 2025
<i>Pharmacist Internship</i>	
- Gained an understanding of pharmaceutical distribution regulations, including CDOB 2020 and CDAKB 2014. - Assisted in inventory documentation and stock recording of pharmaceutical products and medical devices to support traceability and data integrity. - Assisted in reviewing customer qualification and regulatory completeness for psychotropic product orders to ensure compliance with applicable regulations.	
PT. Lapi Laboratories - Serang, Banten	Dec 2024 - Jan 2025
<i>Pharmacist Internship at Production Department</i>	
Gained exposure to solid dosage form manufacturing processes, including weighing, mixing, granulation, tablet compression, and capsule filling in compliance with CPOB/GMP standards.	

- Observed and analyzed tablet compression and capsule filling processes to understand the production workflow and factors affecting product quality
- Assisted in the preparation and review of 10+ qualification and quality documents, including DQ, OQ, URS, SOPs, and equipment cleaning procedures, aligned with internal quality standards.
- Gained exposure to Critical Process Parameters (CPP) and their impact on product quality through production observation and basic data review.
- Supported equipment inventory documentation (dies and punches) to assist utilization monitoring and preventive maintenance planning.
- Assisted and supported colleagues in preparing 3 User Requirement Specifications (URS) documents and ensured proper completion in line with internal documentation procedures.
- Participated in In-Process Control (IPC) activities to monitor product quality and compliance with production procedures.

Apotek Kimia Farma 0389 Nusantara - Depok
