Aspire Institute Harvard University – Online [March 2025 – May 2025]

Leadership program development

Developed a proactive, solution-oriented mindset to navigate complex challenges and contribute innovative ideas.

EXPERIENCE

PT Anugerah Pharmindo Lestari NDC – Cikarang [Apr 2026 – May 2026]

Branch Regulatory and Quality Assurance Intern

- Actively monitored and ensured 100% branch operational compliance with Good Distribution Practice (GDP/CDOB) and the latest regulatory updates from the Ministry of Health and BPOM.
- Helped organize and maintain regulatory documentation by evaluating quality documents and reviewing packaging batch records, demonstrating strong attention to detail.
- Actively participated in audit preparation, executed mock audits, and formulated comprehensive improvement follow-ups using CAPA (Corrective and Preventive Action) formats to ensure strict compliance.

PT Lucas Djaja and PT Marin Liza Farmasi – Bandung [Jan 2026 – Feb 2026]

Research and Development Intern

- Analytical & Formulation Trials: Executed comprehensive trials and troubleshooting for new and existing pharmaceutical product portfolios (including specialized OBH Plus syrup and effervescent products), monitoring analytical performance to evaluate formulation stability and efficacy.
- COA & Literature Review: Conducted in-depth literature studies and meticulously reviewed raw material Certificates of Analysis (COA) to ensure material quality and compatibility prior to laboratory and pilot-scale execution.
- Protocol & Report Preparation: Prepared, compiled, and managed critical technical documents, protocols, and reports related to R&D activities, ensuring the successful preparation of ACTD regulatory registration dossiers.
- Data Analysis: Analyzed critical process parameters and reviewed analytical results during the scale-up process to ensure absolute adherence to CPOB (GMP) standards.

PT Medika Antapani – Bandung [March 2026]

Pharmacist Intern

- Business Improvement Project: Led and executed a comprehensive business feasibility study for pharmacy, integrating detailed SWOT analysis, risk assessments, and operational layouts, showcasing strong analytical and project management capabilities.
- Data Analysis: Analyzed daily operational data to proactively forecast inventory needs and optimize supply availability.

RSUD Bandung Kiwari – Bandung [November 2025]

Pharmacist Intern

- Actively monitored patient therapies in the wards to support Pharmacovigilance activities, including the identification, documentation, and reporting of Adverse Drug Reactions (MESO - Monitoring Efek Samping Obat) to ensure optimal patient safety.
- Acted as a key liaison in a fast-paced, multidisciplinary healthcare environment, collaborating effectively with doctors and nursing staff to ensure accurate and timely clinical interventions.
- Maintained meticulous clinical documentation and monitored ward inventory workflows, supporting hospital operational readiness and strict compliance with medical safety standards.

West Java Provincial Health Office - Bandung [Oct 2025]

Pharmacist Intern at Dinkes Jabar, Dinkes Kota Bandung, Puskesmas Riung Bandung

- Studied and reviewed the licensing governance for healthcare facilities and pharmaceutical personnel, including the issuance pathways for Registration Certificates (STR) and Pharmacist Practice Licenses (SIPA) integrated within the OSS RBA (Online Single Submission Risk-Based Approach) system.
- Comprehended the regulatory frameworks, compliance guidance, and health office-level licensing procedures for PIRT (Home Industry Food), PKRT (Household Health Supplies), and Medical Devices.
- Conducted in-depth analyses of regional historical drug consumption trends using Advanced Ms. Excel to forecast healthcare supply requirements at the provincial level.
- Coordinated with various stakeholders to ensure that the procurement procedures for logistics and healthcare supplies were standardized and strictly aligned with applicable government regulations.
