

RIFQI ABIYU OKTAVIANO

PPIC | Supply Chain Management | Supplier Control | Inventory Control | Logistic | Forecasting & Demand Planning

📍 Bekasi, Indonesia | 📧 rifqiabiyyuoktaviano@gmail.com | 📞 0813-1699-1451 | 🔗 linkedin.com/in/raoktaviano/

PROFESSIONAL SUMMARY

Result-driven and highly analytical PPIC professional with extensive experience managing High-Volume Supply Chains, specializing in Demand Planning, Inventory Control, and Delivery Control. Experienced in operating under **ISO 9001**, **IATF 16949** and **ISO 13485** quality management environments. Proven track record in optimizing warehouse management, manufacturing workflows, and logistics, achieving significant cost savings through continuous improvement initiatives. Expert in applying Kaizen, PDCA, and SQCD methodologies to achieve operational excellence and cost leadership in fast-paced environments.

WORK EXPERIENCE

PT. Newlife Healthcare International | PPIC Manager | *February 2026 – Present*

“Operating as a premier medical device manufacturer exporting high-quality medical products to American and European markets.”

- Lead and optimize end-to-end Production Planning, Inventory Control, and Material Management workflows to support high-standard manufacturing operations.
- Led Supply Chain coordination, streamlining cross-functional communication and collaboration with overseas teams and stakeholders outside Indonesia.
- Successfully integrated Artificial Intelligence (AI) into PPIC workflows, driving advanced data automation, predictive analytics, and optimized production scheduling.
- Structured a standardized Material Request system across core manufacturing stages, formulating rigorous procedures for material issuance based on daily production planning and Bill of Materials (BOM).
- Developed formal quality control procedures and comprehensive SOPs for checking imported materials, enhancing supply chain visibility, traceability, and accountability.
- Conducted strategic capacity planning and labor requirement mapping, successfully calculating and allocating staffing needs for complex manufacturing schedules.

PT. Indoseiki Metal Utama | PPIC Assistant Manager | *January 2025 – February 2026*

“Producing Automotive Component and High Tension Bolt for OEM and After Market, Local and Export market”

- Managed and supervised all PPIC Functions, including Production Planning, Inventory Control, and Delivery Control.
- Ensured the smooth flow of high-volume products from production to delivery, directly maximizing product availability in the retail/distribution market.
- Led Kaizen initiatives to improve planning accuracy, optimize supply chain costs, and conducted strategic reporting directly to the Director.
- Successfully increased on-time delivery to 100% for Retail and Distribution customers.
- Spearheaded digitalization initiatives for Job Orders, Production Planning, In-Out Material processes, and Packaging Labeling.
- Formulated and executed a new cutting material method that significantly minimized material waste.

PT. Isuzu Astra Motor Indonesia | Supplier & Material Control Section Head – PPIC Dept. | *November 2018 – January 2025*

“The world's leading manufacturer of commercial vehicles and diesel engines”

- Managed 4M+E (Man, Machine, Material, Method + Energy) in the Supply Chain to consistently meet safety, quality, cost, and delivery targets.
- Monitored, analyzed, and controlled logistics performance data and the IAMI ordering system.
- Managed 122 suppliers to secure delivery needs and strictly controlled all third-party logistics partners.
- Served as the lead Auditor for the Supply Chain System across all active suppliers.
- Responsible for driving Supplier Control KPIs through continuous improvement and structural re-engineering.

Education

- **S1 Industrial Engineering** – Universitas Widyatama, Bandung (Graduated: May 2022)
GPA : 3.11
- **D3 Automotive Engineering** – Astra Manufacturing Polytechnic, Jakarta (Graduated: September 2018)
GPA : 3.33 (*Astra Full Scholarship Program*)

Certifications

- **Certified Warehouse Management Professional (CWMP)** – ESAS Management (2025)
- **Mechatronics Automotive AHK** – Deutscher Industrie- und Handelskammertag (2018)

Skills Profile

Hard Skills

- Production Planning (MPS, MRP, MPP, CRP)
- Warehouse & Supply Chain Management
- ISO 9001:2015, ISO 13485:2016, IATF 16949:2016
- AI Integration for PPIC
- Inventory & Delivery Control
- ERP Systems (SAP & INFOR)
- Microsoft Office & Data Automation

Soft Skills

- International & Cross-Functional Collaboration
- Negotiation & Stakeholder Management
- PDCA & SQCD Analytical Methodologies
- Continuous Improvement & Kaizen
- Man Management & Time Management

Achievements & Awards

- **1st Winner** of Suggestion System – ISUZU AKUJUMPA 2023 (*Theme: Improve Safety, Quality and Delivery for Forklift & Towing Rental*)
- **1st Winner** of Quality Control Circle Non-Technic – ISUZU INNOVATION 2nd Convention 2021 (*Theme: Strengthen Delivery Supplier Performance to Reduce Inventory Cost*)
- **1st Winner** of New Idea – ISUZU INNOVATION 2nd Convention 2021 (*Theme: Integrated End to End Production with Supply Chain 4.0*)
- **1st Winner** of Quality Control Circle Non-Technic – ISUZU INNOVATION 2nd Convention 2020 (*Theme: Decrease Line Stop Supply with Increasing Delivery Accuracy*)
- **2nd Winner** of Quality Control Project – InnovAstra 37 2021 (PT Astra International) (*Theme: Strengthen Foundation of Key Component Logistic Through Re-engineering Process to Achieve Logistic Cost Leadership*)
- **2nd Winner** of Quality Control Circle Non-Technic – ISUZU INNOVATION 1st Convention 2024 (*Theme: Reengineering Delivery Method*)
- **2nd Winner** of Quality Control Circle Non-Technic – ISUZU INNOVATION 1st Convention 2021 (*Theme: Reduce Transportation Cost by Milkrun Method*)
- **3rd Winner** of Quality Control Circle Non-Technic – ISUZU INNOVATION 2nd Convention 2024 (*Theme: Milkrun Expansion to Decrease Cost*)
- **Finalist** of New Idea – ISUZU INNOVATION 2nd Convention 2022 (*Theme: Smart Electronic Delivery Note*)
- **Finalist** of Change Behavior Project – ISUZU INNOVATION 1st Convention 2022 (*Theme: Awareness Communication with Supplier*)
- **Finalist** of Quality Control Project – ISUZU INNOVATION 2nd Convention 2021 (*Theme: Compact Excellence Warehouse Operation Through Partnership with Supplier to Achieve Logistic Cost Leadership with Simplification, Optimization and Lean Perspective*)
