I. SUMMARY

I am a chemistry bachelor graduate with experience in the beverage and cosmetics industries . I have a strong enthusiasm for learning and a keen interest in Quality, Regulatory, RND, and other related fields. I am proficient in using MS Office, Spreadsheets, and other tools for data processing, including advanced functions like VLOOKUP. I am also skilled in creating presentation materials and enjoy engaging in creative tasks using tools like Canva. Additionally, I actively follow technological developments such as AI and combine them with published journals to obtain comprehensive and accurate data and information.

II. EDUCATION

S1 Kimia Universitas Muhammadiyah Sukabumi

IPK: 3.27

III. SKILLS

- Able to use laboratory equipment such as UV-VIS spectrophotometry, pH meters, Karl Fischer meters, and other laboratory instruments.
- Skilled in gravimetric, titrimetric, and other laboratory analysis.
- Computer literacy (Word, Excel, PowerPoint).
- Good organoleptic skills.
- Understand test calculations and raw material identification.
- Understand the production process.

IV. WORK EXPERIENCE

RSUD Sekarwangi (PKL) July 2016 – Agustus 2016	<u>WWTP/IPAL Technician</u> - Conduct wastewater quality checks - Ensure the WWTP system is running properly - Prepare wastewater treatment analysis reports - Conduct sample testing at government and private institutions
PT Tirta Fresindo Jaya April 2017 – April 2019	<u>Quality Control (QC In-Line dan Process)</u> - Checking the production process to ensure compliance with applicable standards. - Analyzing finished tea beverages (pH, organoleptic, and refractometer).

	- Verifying the temperature of products during and after filling. - Viscosity analysis for dairy products and bulk density analysis for coffee. - Conduct sampling of in-process and finished product. - Record and report test results accurately and on time.
PT Tirta Fresindo Jaya Juni 2019 – Juni 2020	<u>Packaging Analyst</u> - Dimensional checks on bottles, caps, and preforms - Wall thickness checks on bottles and preforms - Leak testing on packaging using a vacuum leak tester - Bottle strength analysis using a height gauge
PT Kreasi Indah Alam Oktober 2022 – April 2025	<u>QC Analyst</u> - Conducting inspections of incoming raw materials and packaging materials, in-process control, and finished goods. - Verifying the release of finished products. - Perform microbiological and physico-chemical testing in accordance with procedure. - Document controller for SOP, Batch Records, Form, etc. - Creating internal codes for raw materials, packaging, and finished products. - Conducting production process validations. - Managing stability testing for new and existing products. - Organizing the retain samples of packaging materials, raw materials, and finished products. - Identify and report any testing deviations or non-conformities.
PT Kreasi Indah Alam April 2025 – Saat Ini	<u>Regulatory Officer</u> - Processing BPOM, and PKRT registrations, including Duty-Free Alcohol (NPPP, supplier and usage approvals). - Preparing Product Information Files (PIF/DIP), Cosmetic Safety Assessment Reports, PKRT-Cosmetic Production Reports, MESKOS - Reports, Alcohol Usage Reports, and other related documents. - Participating in external audits, acting as an internal auditor, and serving as an intermediary between the company and authorities. - Collecting, managing, and evaluating scientific data for product claims and margin of safety calculations. - Monitoring, tracking, and implementing guidelines, developments, and updates in regulations, from the production process to product advertising on social media/e-commerce.

V.TRAINING

1. *Hazard Analysis Critical Control Point (HACCP)*
2. *Good Manufacturing Practice*
3. *QC 7 Tools, 5R dan Sistem Jaminan Halal*
4. *Memhami ISO 45001:2018 (Awareness Training of Health, Safety and Environment)*
5. *Cara Pembuat Kosmetik yang Baik (CPKB)*
6. *Food Safety*
7. *Good Laboratory Practice*
8. *Cosmetic Product Information File oleh BPOM*
9. *Audit Dokumen Informasi Produk (DIP)*
