EDUCATION

Universitas Padjadjaran

2025 – 2026

Pharmacist Professional Program, Faculty of Pharmacy

- **GPA:** 3.74/4.00
- Completed Apothecary Professional Practice across pharmaceutical distributors, community pharmacies, pharmaceutical manufacturing industries, and hospitals, gaining exposure to pharmacists' roles in diverse practice settings while strengthening adaptability and interdisciplinary collaboration skills.

Universitas Islam Negeri (UIN) Maulana Malik Ibrahim Malang

2020 – 2024

Bachelor of Pharmacy, Faculty of Medicine and Health Science

- **GPA:** 3.60/4.00
- Conducted research on alternative halal pharmaceutical products derived from natural ingredients, involving product formulation and physicochemical testing, strengthening analytical and research skills while applying pharmaceutical formulation and laboratory testing techniques.
- Served as a laboratory assistant for one semester, assisting in laboratory sessions across four different subjects while supporting practical activities and student guidance, strengthening communication and instructional support skills.
- Actively participated in several student organizations both within and outside the university, strengthening leadership, teamwork, and organizational management skills.

WORKING EXPERIENCES

Rumah Sakit Umum Daerah (RSUD) Welas Asih, Bandung

Sept 2025 – Oct 2025

Pharmacist Intern

- Assisted in hospital pharmacy operations including medication preparation, dispensing, and distribution to inpatient and outpatient units in accordance with hospital pharmacy service standards.
- Conducted supervised patient visits and medication reviews while supporting Pharmaceutical Therapy Optimization (PTO) activities to enhance the appropriateness of pharmacotherapy.
- Participated in medication safety and quality assurance initiatives including medication error prevention, documentation practices, and adherence to hospital SOPs.

PT. Bayer Cimanggis Site, Depok

July 2025 – Aug 2025

Production Intern – Manufacturing Risk Control

- Supported manufacturing risk control activities by reviewing GMP-related documentation including batch records, SOPs, and production logbooks to ensure data integrity, strengthening attention to detail and regulatory compliance skills in pharmaceutical manufacturing.
- Participated in Gemba audits within the production area to observe manufacturing processes and identify potential risks while supporting CAPA initiatives, developing analytical thinking and problem-solving skills in GMP environments.
- Assisted in reviewing and verifying production documentation to ensure alignment with GMP requirements and internal quality standards, reinforcing accuracy and documentation management skills.
- Supported document control and traceability activities to maintain readiness for internal audits and regulatory inspections, strengthening organizational skills and compliance awareness.

Apotek Wellings, Pantai Indah Kapuk (PIK)

June 2025

Pharmacist Intern

- Assisted in prescription screening, dispensing, and drug information services in accordance with pharmaceutical service standards and patient safety principles.
- Supported inventory management activities including drug storage monitoring, stock control, and expiry date surveillance following Good Pharmacy Practice (GPP) standards.
- Contributed to pharmacy documentation and SOP implementation to ensure operational compliance and service quality.

PT. Enseval Putera Megatrading, Bandung

May 2025

Pharmacist Intern

- Participated in structured training covering pharmaceutical distribution operations including regulatory compliance, documentation systems, and Good Distribution Practices (GDP), strengthening regulatory awareness and pharmaceutical supply chain knowledge.
- Assisted the Responsible Pharmacist in reviewing pharmaceutical distribution documents including invoices and delivery records to ensure accuracy, reinforcing attention to detail and documentation verification skills.
- Performed warehouse storage checks to verify compliance with product-specific requirements including temperature control, segregation, and proper product arrangement, strengthening analytical observation and quality compliance skills.

TRAINING AND COURSE

Regulatory Affairs in Pharmaceutical Industry | Teman Lab

04th Aug 2024

Online Training

- Studied the roles and responsibilities of Regulatory Affairs within the pharmaceutical industry to understand regulatory functions in product registration and lifecycle management.
- Reviewed national and international pharmaceutical regulations governing drug development, registration, and post-marketing control.
- Learned the procedures for pharmaceutical product registration with BPOM, including documentation requirements and regulatory submission processes.
- Studied the halal certification registration process through BPJPH, including required documentation and regulatory compliance requirements.

ORGANIZATIONAL EXPERIENCES

Association of Indonesia Pharmacy Student Councils
