PROFESSIONAL SUMMARY

A Bachelor of Pharmacy graduate with comprehensive technical and operational experience spanning cosmetic/pharmaceutical product formulation, compliance documentation, and plant manufacturing operations. Proven proficiency in scaling formulations, executing stability trials, mapping resource frameworks, and monitoring industrial production yields in accordance with GMP (CPOB) standards. Adept at managing cross-departmental pipelines, inventory tracking, and team mentorship, highly effective across Product Innovation, Regulatory Affairs, PPIC, and Production/Warehouse Management roles.

PROFESSIONAL EXPERIENCE

- PT. Cantik Alami Sehat**
Research and Development Staff

August 2025 – Present

 - Develop, scale up, and optimize advanced product formulations following strict quality benchmarks and regulatory frameworks.
 - Conduct material evaluation, monitor product stability metrics, and maintain rigorous documentation to ensure target quality compliance.
- PT. Forsta Kalmedic Global**
Research and Development Intern

March 2025 – July 2025

 - Drafted high-standard product testing protocols and technical R&D compliance records aligned meticulously with GMP guidelines.
 - Monitored commercial production line outputs and evaluated materials to guarantee workflow efficiency and specification consistency.
- RSUD Cibinong / PT. Kimia Farma / PT. Herbal Insani**
Pharmacy, Administration & Professional Internships

2023

 - Managed compound formulation pipelines, calculated stock inventory parameters, and executed strict administrative supply-chain tracking.
- Hayandra Clinic**
Biotechnology Laboratory Assistant Intern

July 2023 – August 2023

 - Processed high-precision clinical samples and analyzed operational data batches utilizing advanced immunochromatographic tools.

LEADERSHIP & ORGANIZATION

- Pharmatrip Fundraising Committee**
Project Management & Fundraising Specialist

2022

 - Coordinated strategic program execution, resource budgets, and stakeholder outreach campaigns to secure project backing.
- BEM Faculty of Medicine, UPNVJ**
Academic & Laboratory Mentor

2021

 - Supervised, scheduled, and structured academic workflows and safe standard operational practices for junior pharmacy students.

EDUCATION

- Pembangunan Nasional Veteran Jakarta University**
Bachelor of Arts in Pharmacy – Faculty of Medicine

Graduated 2024

 - Thesis:** Overview Of Factors Influencing The Incidence Of Stunting In Bojongsari Sub-District, Depok City.

CORE SKILLS & COMPETENCIES

Product & Regulatory	Product Innovation, R&D Formulation, Regulatory Affairs, GMP (CPOB) Compliance Documentation
Operations & PPIC	Production Monitoring, Material & Resource Planning, Inventory Tracking, Workflow Optimization
Plant & Strategy	Quality Control/Assurance, Warehouse Security/Safety, Business Development, Cross-Functional Team Leadership
Tools & Languages	Analytical Equipment Operation, Microsoft Office (Advanced Excel Reporting), English (Professional)
