

Dimas Raka Herlambang

Licensed Pharmacist

089512569953 | dimasrakaherlambang11@gmail.com | Jakarta Selatan

PROFESSIONAL SUMMARY

Licensed Pharmacist with experience as a Pharmacist-in-Charge, specializing in pharmacy operations, regulatory compliance, pharmaceutical procurement, inventory control, and data-driven sales analysis. Experienced in supplier evaluation, demand forecasting, and business reporting using Microsoft Excel, with additional hands-on experience in Quality Assurance (QA) and Quality Control (QC) in accordance with Good Manufacturing Practices (CPOB/GMP). An analytical, detail-oriented, and collaborative professional committed to improving operational efficiency and supporting informed business decision-making.

WORK EXPERIENCE

Internship Pharmacist Bagfarmapol | East Jakarta

Aug 2024 – Oct 2024

- Participated in Quality Assurance and Quality Control activities within a pharmaceutical manufacturing environment in accordance with CPOB/GMP requirements, supporting manufacturing quality oversight and documentation.
- Performed sampling and quality checks on raw materials and pharmaceutical products according to established procedures, testing specifications, and quality requirements.
- Assisted in the preparation, review, and control of pharmaceutical quality documentation, including SOPs, Batch Records, and supporting production and quality documents.
- Supported analytical method validation activities and documentation, including the evaluation of accuracy, precision, linearity, specificity, LOD, LOQ, and robustness.
- Ensured production, Quality Control, and validation activities were documented accurately and completely in accordance with Good Documentation Practices (GDP) and applicable procedures.
- Collaborated with Quality Assurance, Quality Control, and Production functions to support compliance with CPOB/GMP procedures and pharmaceutical quality requirements

Pharmacist in Charge PT. Bintang Semesta Farma | East Jakarta

Aug 2025 – Jul 2026

- Contributed to and oversaw the delivery of pharmaceutical services, ensuring compliance with Indonesian Ministry of Health Regulation No. 73 of 2016 across pharmaceutical care and pharmacy operational management.
- Actively contributed to the delivery of pharmaceutical care by supporting prescription screening, medication dispensing, patient counseling, and the provision of drug-related information in accordance with applicable pharmaceutical service standards.
- Managed legal documentation, regulatory reporting through SIPNAP and JAKEVO, as well as narcotics and psychotropic drug administration in compliance with applicable regulations.
- Managed pharmaceutical procurement and inventory control for more than 2,300 SKUs to maintain product availability and operational efficiency.
- Managed pharmaceutical procurement activities, including evaluating and selecting 12–15 pharmaceutical distributors (PBFs) based on pricing, product availability, and delivery performance to support product availability and operational requirements.

- Conducted demand forecasting using seasonal trends, marketplace insights, consumer purchasing behavior, and market price analysis to support procurement planning.
- Prepared sales performance reports using Microsoft Excel to analyze revenue, profitability, and product performance for business evaluation. Implemented inventory control using FIFO/FEFO principles and monitored products approaching expiration dates.

KEY ACHIEVEMENTS

- Maintained inventory accuracy with stock discrepancies of less than 1% through FIFO/FEFO implementation and regular stock-taking activities.
- Contributed to the development of a Standard Operating Procedure (SOP) for pharmaceutical distributor (PBF) payment processes in collaboration with the Compliance team, improving administrative standardization and operational efficiency.
- Developed a Microsoft Excel-based sales dashboard to monitor revenue, profitability, sales trends, and product performance, supporting data-driven business decision-making.
