Cileungsi, Bogor.

Registered Pharmacist with experience in Quality Assurance Compliance, focusing on CPOB/GMP compliance and pharmaceutical quality systems. Experienced in conducting internal inspections and reviewing 5+ key quality systems, including deviations, CAPA, change control, quality risk management, and SOPs. Detail-oriented and analytical, with experience supporting regulatory inspections and monitoring corrective actions in a structured pharmaceutical environment.

Work Experiences

PT. Yarindo Farmatama - Kab. Serang

Jun 2026 - Present

Quality Assurance Compliance

- Conduct internal inspections and routine GMP audits of production, warehouse, laboratory, and supporting facilities, including developing inspection questions and checklists based on GMP requirements, internal procedures, previous findings, and quality risk assessments.
- Evaluate and follow up self-inspection findings by assessing root causes, potential quality and compliance risks, monitoring CAPA implementation, and evaluating the effectiveness and timely closure of corrective actions.
- Review and assess quality documents, including SOPs, change controls, deviations, CAPA, quality risk management, and other GMP-related documentation to ensure compliance with applicable quality and regulatory requirements.
- Support regulatory inspections and self-inspections by preparing required documentation, coordinating inspection activities, providing relevant records, and monitoring corrective actions through to closure.
- Participate in change control processes by reviewing and assessing proposed changes to ensure appropriate impact assessment and compliance with quality and regulatory requirements.
- Monitor compliance with Good Documentation Practices (GDP) and ensure the integrity, accuracy, completeness, traceability, and timely completion of quality records.
- Monitor training compliance and support the evaluation of training effectiveness for Quality Assurance personnel, including training completion, evaluation results, competency gaps, and follow-up actions or retraining when required.

PT. Darya-Varia Laboratoria Plant Gn. Putri - Kab. Bogor

Oct 2025 - Dec 2025

Pharmacist Intern Quality Assurance Supplier Quality

- Contributed to the development of approximately 80% of the Vendor Quality Agreement Monitoring template and monitored vendor documentation, including Quality Agreement, LPMP, and SAS/SATS.
- Assisted in external audit preparation through document management, including copying, filing, and scanning GMP and GDP questionnaires.
- Reviewed supplier qualification documents (e.g., Hy-Gro, Merck) and completed GMP and GDP questionnaires for raw material manufacturers to ensure compliance with CPOB standards.
- Supported Product Quality Review (PQR) activities (September–October) by compiling data related to supply chain traceability, supplier qualification status, and audit records.
- Analyzed GMP comparison matrices against international standards (ISO 22000, FSSC 22000, ISO/TS 22002-1) to ensure alignment of quality management systems.

Badan Pengawas Obat dan Makanan (BPOM) - Jakarta Pusat

Sep 2025 - Oct 2025

Pharmacist Intern

- Completed a professional internship (PKPA) at the Directorate of Community and Business Empowerment for Traditional Medicines, Health Supplements, and Cosmetics (PMPU OTSKK), focusing on empowering industry stakeholders in regulatory compliance.
- Analyzed the role of pharmacists as regulatory facilitators in the business certification process, particularly in fulfilling licensing requirements, through participation in business mentoring webinars and weekly directorate meetings.
- Contributed to the development of Communication, Information, and Education (KIE) materials, including posters, infographics, articles, and educational videos, to enhance public awareness and support regulatory compliance.

PT. Penta Valent Jakarta 2 - Jakarta Timur

Aug 2025 - Sep 2025

Pharmacist Intern

- Supported the distribution of pharmaceutical products and medical devices in accordance with Good Distribution Practice (GDP) principles.
- Verified the accuracy of incoming goods against supporting documents (delivery notes, invoices) and maintained systematic recording and reporting to ensure inventory data accuracy.
- Organized inventory using FEFO (First Expired, First Out) and FIFO (First In, First Out) systems to maintain product quality.
- Assisted in preparing invoices based on drug classification and organizing purchase orders to support traceability and audit readiness.

- Collaborated with Yayasan Mahija in organizing community service activities, including free medical services and basic needs distribution for over 500 underprivileged individuals.
- Initiated and organized a communication training program for individuals with disabilities, attended by approximately 100 healthcare professionals and students, to promote inclusive healthcare services.
