EXECUTIVE SUMMARY

Pharmacist with multidisciplinary experience spanning pharmaceutical research, formulation development, quality control, pharmaceutical distribution, and pharmaceutical care. Conducted pharmacological research involving sub-microemulsion based formulations during my Bachelor of Pharmacy and actively developed pharmaceutical and cosmetic formulations, including a registered intellectual property utilizing coconut fiber waste. During Pharmacist Professional Education, gained hands-on experience in pharmaceutical manufacturing through Quality Control, as well as hospital pharmacy, community pharmacy, primary healthcare, and pharmaceutical distribution. Combining scientific research, formulation, quality, and healthcare experience, I am committed to continuous learning and contributing to the development of innovative, safe, and high-quality pharmaceutical products and healthcare solutions.
