

Hiring Manager PT Mersifarma

Subject: Application for In-Process Control (IPC) Staff - Quality Assurance

Assalamualaikum Warahmatullahi Wabarakaatuh

Dear Hiring Manager,

I am writing to express my strong interest in the In-Process Control (IPC) Staff position within the Quality Assurance department at PT Mersifarma. As a Pharmacist candidate from Universitas Islam Sultan Agung and a graduate of Universitas Islam Negeri Maulana Malik Ibrahim Malang, I am deeply committed to ensuring that every pharmaceutical manufacturing process adheres to the most stringent quality standards.

My academic background and professional rotations (PKPA) have equipped me with a robust understanding of Good Manufacturing Practice (CPOB/GMP). During my tenure as a student and researcher, I developed a high level of technical proficiency in pharmaceutical analysis, particularly in operating HPLC and performing physical chemical testing. I understand that the role of an IPC Staff is critical in monitoring critical process parameters (CPPs) and ensuring that all production stages from granulation to final packaging meet the required specifications before moving to the next phase.

My core competencies that align with PT Mersifarma's quality goals include:

- **Process Monitoring & Validation:** Skilled in performing in-process checks, weight variation tests, disintegration tests, and hardness testing to ensure batch uniformity.
- **Quality Compliance:** Thorough understanding of CPOB guidelines, focusing on preventing cross-contamination and ensuring data integrity through accurate batch record reviews.
- **Analytical Rigor:** Ability to utilize analytical instruments like HPLC to support investigations if deviations occur during the production process.
- **Leadership & Decision Making:** My experience as a Disaster Field Coordinator has honed my ability to lead with mindfulness, maintain focus under pressure, and make firm, evidence-based decisions on the production floor.

I am a detail-oriented professional who believes that quality is built into the product at every step of the process. My vision is to join PT Mersifarma's QA team to uphold and guarantee that every product maintains its highest quality standards until it reaches the hands of the Indonesian people. Having completed my National Pharmacist Competency Examination (UKOMNAS PDPA) this March, I am fully prepared to dedicate my expertise to your manufacturing facility in Sukabumi.

Thank you for your time and consideration. I have attached my resume for your review and look forward to the possibility of discussing how my technical skills and disciplined approach can support PT Mersifarma's quality assurance performance.

Wassalamualaikum Warahmatullahi Wabarakaatuh

Sincerely,

Tholut Adz-Dzahaby, S.Farm.

PERSONAL INFORMATION

I am a Pharmacy graduate from Universitas Islam Negeri Maulana Malik Ibrahim Malang (2024) with a strong dedication to industrial pharmacy and research. I have recently completed the National Pharmacist Competency Examination (UKOMNAS PDPA) at Universitas Islam Sultan Agung (UNISSULA) and i am scheduled for official graduation in April 2026. I possess a keen interest in natural product pharmacy, supported by research experience in the bioactive compounds of plant extracts as anti-quorum sensing agents against bacteria. I am a resilient and adaptive individual, proficient with the latest laboratory technologies and accustomed to working in challenging environments. I am determined to contribute to the development of innovative, research-based pharmaceutical products.

PROFESSIONAL SUMMARY

A Pharmacist candidate with a strong focus on Industrial Pharmacy, specifically in Quality Assurance (QA), Production, and R&D. Recently completed the Professional Apothecary Program with a GPA of 3.50, possessing hands-on experience in CPOB/CPKB (GMP) and CDOB (GDP) through intensive internships at BPOM, pharmaceutical industries, and distribution centers. Proven leadership as a Field Coordinator managing emergency response teams, demonstrating an ability to lead, coordinate under pressure, and solve complex problems. Committed to ensuring high standards of production efficiency and product quality.

PROJECTS & INTERNSHIPS

Puskesmas Srandol
January, 2025

Clinical Pharmacist Professional Internship

- Understanding the main duties and functions of a Pharmacist in a public health centre
- Comprehending the workflow for managing medication and medical consumables (BMHP)
- Performing the duties of a Clinical Pharmacist in a public health centre

PT. Great Mataram
February, 2025

Pharmacist Professional Internship

- Understanding the duties of a pharmacist in drug distribution facilities
- Comprehending the drug distribution workflow
- Understanding permits related to drug distribution
- Grasping the fundamentals of Good Distribution Practices (GDP) for drugs (CDOB)

Apotek Baitusy Syifa
March, 2025

Clinical Pharmacist Professional Internship

- Understanding the main duties and functions of a Pharmacist in a public health centre
- Comprehending the workflow for managing medication and medical consumables (BMHP)
- Performing the duties of a Clinical Pharmacist in a public health centre

BPOM
May, 2025

Pharmacist Professional Internship

- Understanding the duties of a pharmacist in government regulatory
- Understanding permits related to drug distribution

**Mini Industri FF
UNISSULA**
July, 2025

Pharmacist Professional Internship

- Understanding process validation related to drug quality from performance validation to revalidation
- Performing instrument qualification
- Ensuring quality assurance procedures in the pharmaceutical industry comply with GMP (Good Manufacturing Practices)
- Understanding the fundamentals of GMP

Soerojo Hospital
August, 2025

Clinical Pharmacist Professional Internship

- Understanding the main duties and functions of a Pharmacist in a Hospital
- Comprehending the workflow for managing medication and medical consumables (BMHP) in a Hospital
- Knowing how to reconstitute sterile drugs
- Performing the duties of a Clinical Pharmacist in a Hospital

Professional Project
Practice Unissula
Desember, 2025

Pharmacist Professional Project

- Formulating halal hair pomade products from rosemary essential oil and review the formulation with literature evidence
- Gained hands-on insight into Material Requirement Planning (MRP) and Quality Control processes
- Assisted in drafting and reviewing Standard Operating Procedures (SOPs) to align with CPKB standards

WORK, LEADERSHIP & VOLUNTEER EXPERIENCE

**Rumah Zakat /
Relawan Nusantara,
Malang**

Field Coordinator - Emergency Response | 2021 - 2023

- Led and coordinated rapid response teams during the Semeru volcanic eruption disaster
- Managed resource allocation and on-field coordination under high-pressure environments

Project Leader - Infrastructure Development | 2024

- Supervised the construction project of SDN Pajaran Library, ensuring timeline adherence and cross-sector collaboration

Event Coordinator - Indonesia Mendongeng | 2023

- Orchestrated large-scale community programs, managing logistics and volunteer mobilization

**PT. Dasa Windu
Agung**

Warehouse Manager Branch Malang | 2020-2023

- manage supply and be responsible for product distribution to dealers spread across the East Java region

SKILL

**Regulatory
Compliance**

Proficient in CPOB (GMP), CPKB (Cosmetic GMP), CDOB (GDP), and Pharmacovigilance

**Technical &
Laboratory**

Product Formulation (Essential Oils/Nanoparticles), IPC, Batch Record Documentation, and In-vitro Research

Software

Advanced Microsoft Office (Word, Excel, PowerPoint) for production data and reporting

Personal

Analytical Thinking, Strategic Planning, Crisis Management, and Team Leadership
