Thesis: Antibiofilm Activity of Combined Lime Peel Extract (Citrus aurantifolia) and Miana Leaf Extract (Coleus scutellarioides L. Benth) against Staphylococcus aureus and Klebsiella Pneumoniae

WORK & INTERNSHIP EXPERIENCE

RSUD Dr. R. Soedjati Soemodiardjo – Purwodadi – PKPA – Hospital Pharmacy *July – August 2025*

- Delivered comprehensive clinical pharmacy services across Outpatient, Inpatient, Emergency Department (ED), and Oncology Depo units: prescription review, dispensing, drug handover, and drug information services (DIS) for BPJS and non-BPJS patients.
- Handled cytostatic (antineoplastic) drugs aseptically in the Oncology Depo, including reconstitution and documentation of chemotherapy agents in compliance with sterile compounding protocols.
- Performed advanced clinical pharmacy activities: collaborative ward rounds with physicians, Adverse Drug Reaction monitoring (MESO), medication reconciliation, and Medication Therapy Monitoring (MTM) to optimize patient therapeutic outcomes.
- Managed floor-stock systems in ICU, ED, and Oncology wards: inventory control, storage temperature monitoring, and SOP-based documentation and reporting.
- Managed the hospital pharmaceutical supply chain: drug selection, planning, procurement, receiving, storage, management, and disposal of medical supplies in accordance with hospital accreditation standards.

Apotek Danaraja Farma – Banjarnegara – PKPA – Retail Pharmacy *March – April 2025*

- Provided clinical pharmacy services: prescription review, dispensing, drug information services (DIS), patient counseling, drug therapy monitoring (DTM), and reporting of Adverse Drug Events (ADE/ADR).
- Delivered rational self-medication (OTC) consultations using the WWHAM method to assess patient complaints and recommend appropriate non-prescription medications safely and effectively.
- Managed pharmaceutical inventory using FEFO/FIFO principles: planning, procurement, receiving, storage, distribution, stock-taking, and narcotic/psychotropic reporting.

PBF PT Bina San Prima (BSP) – Pati – PKPA – Pharmaceutical Distributor (PBF) *February 2025*

- Evaluated GDP/CDOB implementation in distribution operations to ensure compliance with national regulatory standards and pharmaceutical distribution quality requirements.
- Managed cold chain product (CCP) distribution and storage with periodic temperature monitoring and CDOB-compliant documentation.
- Supported warehouse management, stock control, health product distribution, and administration and reporting of narcotics and psychotropics in compliance with regulations.

Puskesmas Gunung Pati – Semarang – PKPA – Primary Healthcare Center *January 2025*

- Performed clinical pharmacy services: prescription review, dispensing, drug information services (DIS), and Medication Therapy Monitoring (MTM) to ensure optimal outpatient therapeutic outcomes.

- Managed pharmaceutical supplies, medical devices, and BMHP in compliance with applicable regulations; handled pharmaceutical administration, reporting, and National Health Insurance (JKN/BPJS) program management.

RSUD Prof. Dr. Aloi Saboe – Gorontalo – Clinical Practicum (PKL) – Hospital Pharmacy

June 2022

- Supported management of 500+ pharmaceutical items per hospital accreditation standards; assisted in verification and dispensing of 30–50 prescriptions per day.
- Performed prescription screening, drug information services (DIS), and patient counseling for BPJS and non-BPJS patients; participated in inventory monitoring and expiry control.

Apotek Nabila Farma – Gorontalo – Clinical Practicum (PKL) – Retail Pharmacy

July 2022

- Dispensed 10–20 prescriptions per day under pharmacist supervision; assisted in managing 100 drug items using FIFO/FEFO, alphabetical, and pharmacological classification systems.
- Provided patient drug information counseling on dosage, administration, and appropriate drug use to optimize therapeutic outcomes.

Puskesmas Kota Tengah – Gorontalo – Clinical Practicum (PKL) – Primary Healthcare Center

July 2022

- Supported primary healthcare pharmacy services by managing over 300 pharmaceutical items, ensuring inventory availability and smooth medication distribution processes.
- Assisted prescription services for 30–50 patients daily, including medication preparation, patient counseling, and pharmacy administration to support treatment accuracy and service quality.

ACHIEVEMENTS & ACADEMIC EXPERIENCE

- Teaching & laboratory assistant – Pharmaceutical Analysis, Microbiology, Pharmaceutics, and Organic Chemistry 2020 – 2024
- Recipient of national research funding – Student Entrepreneurship Program (PKM-K), Directorate General of Higher Education, Research and Technology (Ditjen Diktiristek) 1 October 2022
- Completed Bachelor of Pharmacy degree in 4 years 12 February 2024
