Perumahan Villa Nusa Indah 5, Blok SF5/30, Ciangsana, Kab. Bogor, Jawa Barat

Pharmacist Professional Graduate from Institut Teknologi Bandung (ITB), to be officially licensed in April 2026, with a strong interest in Research and Development within the pharmaceutical industry. Experienced in laboratory research, data analysis, and process optimization, including evaluation of Critical Quality Attributes (CQA) and Critical Process Parameters (CPP). Familiar with GMP guidelines, quality systems, and technical documentation. Demonstrates strong analytical thinking, problem-solving skills, and a proactive approach, with the ability to work effectively both independently and in cross-functional teams.

Work Experiences

Rumah Sakit Advent - Bandung

Sep 2025 - Oct 2025

Clinical Pharmacy Intern

- Conducted prescription review and assessment for 75 prescriptions to ensure accuracy, safety, and compliance with pharmaceutical standards.
- Delivered health promotion and patient education sessions as a presenter, focusing on proper medication use, including the importance of not crushing medications without professional guidance and avoiding premature discontinuation of prescribed therapy to ensure treatment effectiveness and patient safety.
- Performed clinical drug therapy monitoring for 3 patients, contributing to therapy evaluation and optimization.
- Gained knowledge of hospital procurement and pharmaceutical supply management processes.
- Provided medication counseling and drug information services for discharged inpatients to support safe and effective medication use.

PT Teknologi Medika Pratama - Depok

Aug 2025

Pharmacy Intern

- Observed and learned drug storage and distribution procedures in accordance with Good Distribution Practices (CDOB).
- Practiced documentation and record-keeping related to pharmaceutical products.
- Performed cycle count for 50 SKUs to maintain inventory accuracy
- Gained exposure to basic inventory management concepts in pharmaceutical distribution.

Apotek Medika Antapani - Bandung

Jul 2025

Clinical Pharmacy Intern

- Conducted self-medication consultations for patients
- Provided comprehensive drug information services
- Delivered patient counseling sessions
- Developed feasibility studies for new pharmacy establishment

Dinas Kesehatan Provinsi Jawa Barat - Bandung

May 2025

Pharmacy Intern

- Clinical pharmacy service delivery in primary healthcare facilities (FKTP).
- Solid understanding of pharmaceutical management in community health centers (Puskesmas)
- Gained knowledge of Cold Chain Product (CCP) management, including storage, handling, and temperature control compliance.

PT Marin Liza (Lucas group) - Bandung

Apr 2025

Production Intern

- Conducted trend analysis of environmental monitoring data over a month period in the production area and prepared trend analysis reports to support quality evaluation and GMP compliances
- Acquired theoretical knowledge of Overall Equipment Effectiveness (OEE) and its application in manufacturing performance assessment.
- Performed cycle time data entry and processing to support production time efficiency improvement

BRIN - Collaboration with ITERA - Cibinong

Feb 2023 - Apr 2024

Research Assistant

- Conducted in silico analysis, including bioinformatics and molecular docking, using natural compounds for target therapy in prostate and breast cancer
- Assisted on developing an isolation method of plant-derived bioactive compounds.
- Cultured K562 and MCF-7 cancer cell lines under controlled laboratory conditions.
- Conducted cytotoxicity testing (MTT assay) of natural product compounds on cancer cell lines.
- Performed RNA isolation and RT-qPCR analysis to evaluate gene expression changes.

Institut Teknologi Sumatera - Lampung Selatan

Sep 2023 - Dec 2023

Pharmaceutical Instrumental Analysis Laboratory Assistant

- Guided and supervised over 80 students during weekly hands-on lab activities.

- Demonstrated basic principle of spectroscopy analysis (Uv-Vis), FTIR, AAS, GC, and HPLC.

Institut Teknologi Sumatera - Lampung Selatan <i>Organic Chemistry of Pharmacy Laboratory Assistant</i>	Feb 2023 - Jun 2023
• Guided and supervised over 40 students during weekly hands-on lab activities. • Demonstrated method of re-purification and active pharmaceutical ingredient synthesis	

Education Level

Institut Teknologi Sumatera - Lampung Selatan <i>Bachelor of Pharmacy, 3.71/4.00</i>	Aug 2020 - Jul 2024
• Laboratory Assistant • Research Assistant • Himpunan Farmasi ITERA (Data and Information Staff)	

Institut Teknologi Bandung - Bandung <i>Professional degree Apothecary, 3.89/4.00</i>	Feb 2025 - Apr 2026 (Expected)
---	--------------------------------

Organisational Experience

Himpunan Mahasiswa Farmasi ITERA - Lampung Selatan <i>Data and Information Staff</i>	Feb 2022 - Feb 2023
• Managed and maintained documentation related to HIMAFa information. • Designed and developed a website to centrally store organizational information and enable public access.	

Skills, Achievements & Other Experience

- **Soft Skills:** Analytical thinking & data interpretation, Problem-solving and root cause analysis, Attention to detail, Team collaboration & communication, Time management & adaptability
- **Hard Skills:** Laboratory research and experimental design, Data analysis and trend analysis, Process development and optimization, CQA & CPP evaluation, GMP (CPOB) knowledge and quality systems, Technical documentation and scientific reporting.
