PROFESSIONAL SUMMARY

Licensed Pharmacist with experience in Quality Assurance and regulatory compliance within pharmaceutical and cosmetic manufacturing industries. Experienced in BPOM product notification, batch record review, CAPA, Change Control, SOP revision, and Product Quality Review (PQR) preparation. Strong understanding of GMP principles, quality management systems, and root cause analysis. Proficient in data analysis to support quality reporting and regulatory documentation. Detail-oriented, analytical, and collaborative professional committed to ensuring product quality, regulatory compliance, and continuous improvement across cross-functional teams.

WORK EXPERIENCE

PT Samudra Estetika Perkasa (Dermaaesthetic Groups) – Central Jakarta

Pharmacist in Charge/Quality Assurance

January 2025-December 2025

- Reviewed document for product notifications;
- Prepared cosmetic product breakdown document to support BPOM notification and regulatory compliance;
- Reviewed product batch records;
- Handled customer complaints through investigation, root cause analysis, and implementation of corrective and preventive actions (CAPA);
- Work closely with all factory departments to support smooth operational activities while ensuring compliance with quality standards and regulations.
- Ensured the effective implementation of product quality assurance systems;
- Perform filing and maintenance of SOPs, specifications, forms, and other quality-related documents.

PT Sanbe Farma – West Bandung

Quality Assurance Staff (Internship)

April – May 2024

- Created CAPA documents under the supervision of QA team;
- Revise the SOP based on BPOM findings under the supervision of QA team;
- Created Change Control documents under the supervision of QA team;
- Collected data needed to create a PQR from Batch Records;
- Input and processed production data using Minitab Software to generate charts for PQR;
- Revised the PQR documents based on BPOM findings under the supervision of QA team;
- Participated in training sessions from sterile production departments, QC, Validation, PPIC, Mechanical Engineering, and HVAC system.

PT Putra Perdana Khadijah – Yogyakarta

Distributor Pharmacy (Internship)

November 2023

- Prepared over 100 medication orders per day for distribution;
- Stored medications using FEFO, FIFO, and alphabetical methods;
- Assisted in conducting stock opname.

Universitas Islam Indonesia – Yogyakarta

Pharmaceutical Analysis Laboratory Assistant

February – July 2023

- Assisted the faculty to managed over 100 students during pharmacy analysis practical sessions;
- Operate laboratory equipment specifically UV-Vis spectrophotometer;
- Analyzed various drug preparations to determine the concentrations;
- Performed titration, specifically argentometric titration.

Universitas Islam Indonesia – Yogyakarta

Formulation and Technology Laboratory Assistant

February – July 2023

- Managed over 100 students during practical sessions;
- Assisted students to do pre-formulation of tablet, cream, ointment, and suspension;
- Accompanied students in making conventional tablets, coated tablets, creams, ointments, and suspension syrups.

EDUCATION

Universitas Islam Indonesia – Yogyakarta

2023 – 2024

Pharmacy Profession

GPA 3.88/4.00

Universitas Islam Indonesia – Yogyakarta

2019 – 2023

Bachelor of Pharmacist

GPA 3.62/4.00

Organizational Experience

Lembaga Eksekutif Mahasiswa (LEM) – Universitas Islam Indonesia

Staff of the Community Social Division

2021 – 2022

- Planned and executed a workshop on disaster mitigation;
- Conducting community service in assisted villages;
- Assisting the implementation of webinars related to law and the environment

Unisi Music Community – Universitas Islam Indonesia

Staff of Event Organizer Division

2020 – 2021

- Plan and execute music event

Committee & Volunteering Experience

Global Pharmacy and International Cultural Engagement

Student Buddies

August 2023

- Introducing Indonesian culture, particularly in pharmacy;
- Accompanying and acting as a liaison officer for student exchange participants during the event.

Academic Project

Gold Nanoparticles Cysteine Modified for Colorimetric Detection of *E. coli*

Researcher

February-July 2023

- Developed a formulation for synthesizing gold nanoparticles.;
- Developed a suitable formulation to functionalize gold nanoparticles with cysteine;
- Analyzed the characteristics of cysteine-modified gold nanoparticles using UV-Vis spectrophotometry, particle size measurements, and zeta potential measurements;
- Cultured *E. coli* and performed serial dilutions to obtain a range of concentrations.;
- Reacted *E. coli* with cysteine-modified gold nanoparticles and summarized the capability of cysteine-modified gold nanoparticles to identify *E. coli*.

Student Exchange of UII x IIUM Malaysia

Student Exchange

December 2022

- Studied Malaysia culture in the field of pharmacy
- Attended classes at the Faculty of Pharmacy in IIUM University;
- Completed the industrial training in departments of pharmacy at Sultan Ahmad Shah Medical Centre IIUM.
