PERSONAL PROFILE

I am a proactive and self-driven Apothecary Professional Program graduate with a lifelong learning mindset and have strong interest in drug development, quality assurance, quality control, and regulatory affair. Through my internship in the quality assurance department, which gave me an excellent understanding of the principle of current Good Manufacturing Practice (GMP), Good Documentation Practice (GDP), batch record review, product quality review, regulatory compliance, and pharmacovigilance. Highly motivated and adaptive, I am eager to take on new challenges and contribute to pharmaceutical innovation and compliance excellence.

EDUCATION

Apothecary Professional Degree, Universitas Sumatera Utara	2024 – 2025
• GPA: 4.00 / 4.00 (Cum Laude)	
Bachelor of Pharmacy, Universitas Sumatera Utara	2020 – 2024
• GPA: 3.75 / 4.00 (Cum Laude)	
• Final Project Research Area: Computational Pharmaceutical Chemistry	
• Thesis : Pharmacophore Modeling and Molecular Docking of Potential Inhibitor Compounds Focal Adhesion Kinase (FAK)	

ACADEMIC EXPERIENCES

INTERN PHARMACIST - QUALITY ASSURANCE at PT. KALBIO GLOBAL MEDIKA	Dec 2024 – Jan 2025
- Assisted in reviewing and verifying batch production records and batch packaging records for compliance with Good Manufacturing Practice (GMP/CPOB). - Assisted in storage system validation (thermal mapping) to ensure compliance with GMP/CPOB standards - Contributed to documentation and reporting of product quality review (PQR), validation master plan (VMP), HVAC system qualification, and visual inspection qualification - Assisted in quality documentation management, including SOP updates, revisions, and change control processes - Gained knowledge through induction on end-to-end process of sterile product line - Induction training on basic GMP, halal management systems, pharmacovigilance, Good Documentation Practice, basic HSSE, sanitation & hygiene, waste control and emergency management	
INTERN CLINICAL PHARMACIST – RUMAH SAKIT PUSAT ANGKATAN DARAT (RSPAD) GATOT SOEBROTO	Feb – Mar 2025
- Understood the roles, functions, and responsibilities of hospital pharmacists in accordance with PMK No. 72 of 2016 on hospital pharmacy service standards - Assisted high volume prescription services, handling an average of 3,000 prescriptions per day with precision - Trained in aseptic dispensing practice and safe handling of cytotoxic drugs according to hospital pharmacy standards - Observed and gained exposure to clinical pharmacy services in specialized units (ICU, NICU/PICU) - Performed patient medication therapy monitoring to ensure effectiveness, safety, and adherence - Assisted in compounding sterile and non-sterile formulations in the hospital pharmacy - Supported inventory management, including stock monitoring, expire date verification, and controlled drug reporting - Acquired knowledge of hospital pharmaceutical management processes, including procurement, storage, distribution, and reporting	

INTERN CLINICAL PHARMACIST – PUSKESMAS BELAWAN**November 2024**

- Understood the roles, functions, and responsibilities of pharmacists in accordance with PMK No. 74 of 2016 and PMK No.26 of 2020 on pharmacy service standards in primary health centers (Puskesmas)
- Performed prescription review and daily dispensing services, managing an average of 80 prescriptions per day
- Supported the management of pharmaceutical supplies and medical consumables, including planning, requesting, receiving, storage, distribution, and stock control
- Provided counseling and health education to patients with chronic diseases such as hypertension and diabetes in Kampung Nelayan, Belawan
- Participated in community health promotion activities in support of national health programs, including Tuberculosis, Prolanis, and maternal and child health (Posyandu)
- Collaborated with healthcare professionals to support integrated primary healthcare services

INTERN COMMUNITY PHARMACIST – APOTEK SEHAT SEMBADA**October 2024**

- Understood the roles, functions, and responsibilities of pharmacists in accordance with PMK No. 73 of 2016 on pharmacy service standards in community pharmacies
- Assisted in prescription dispensing and managed over-the-counter (OTC) medications
- Performed drug information services and counseled patients on proper medication use, potential side effects, and drug interactions
- Supported inventory management, including stock monitoring, expiry date checking, and ordering of pharmaceutical supplies

INTERN PHARMACIST – PBF PT. ANTAR MITRA SEMBADA (AMS)**September 2024**

- Applied GDP/CDOB principles in pharmaceutical distribution activities
- Gained knowledge of end-to-end processes in pharmaceutical distribution, including ordering, receiving, storage, inventory control, and reporting.
- Understood and applied proper handling procedures for cold chain products (CCP) in compliance with GDP/CDOB standards
- Conducted a case study on GDP/CDOB recertification and developed corrective and preventive action (CAPA) recommendations
- Assisted in preparing invoices and purchase orders, verifying customer data, and double-checking orders for accuracy

HONORS AND AWARDS

Dean's List - with the highest GPA of 4 in the Pharmacy Professional Education Study Program, Faculty of Pharmacy, Universitas Sumatera Utara	2025
--	-------------

ORGANIZATION AND VOLUNTEERING EXPERIENCES

Community Service - Empowering PKK Cadres in Biru-Biru District through Education and Training in Healthy Food Production to Prevent Stunting in Biru-Biru Village, Sibiru-Biru District	Sept 2023
Community Service - Drug Awareness Culture Training through DAGUSIBU for the Community of Biru-Biru Village, Sibiru-Biru District as Family Health Cadres	Sept 2023
Imam Bonjol Student Union (IMIB), North Sumatra - member of the student union	2022-2024

SKILLS

- **Technical skills:** Good manufacturing practice (GMP/CPOB), ISO 9001 quality management system (QMS basic), CAPA, good documentation practice, validation & qualification support (IQ/OQ/PQ basic), batch record review, product quality review
- **Tools:** Microsoft Office, Canva
- **Software:** Autodock Vina, LigandScout, Pharmit, PyMOL, Biovia Discovery Studio, SPSS
- **Soft skills:** Problem-solving skill, high attention to detail, analytical thinking, conscientiousness, initiative and result oriented, able to work independently and in a team

COVER LETTER

Dear HRD Manager,

My name is Febrina Idha, a graduate of the Apothecary Professional Program from Universitas Sumatera Utara. I have internship experience as a Quality Assurance Intern at PT. Kalbio Global Medika, where I gained hands-on experience in pharmaceutical manufacturing and quality systems, including Good Manufacturing Practice (CPOB), SOP management, change control, and thermal mapping validation.

During my internship, I was involved in reviewing batch production and packaging records, assisting in validation and qualification documentation, and supporting the preparation of reports such as the Validation Master Plan (VMP) and Product Quality Review (PQR). I also gained an understanding of the end-to-end sterile production process and basic concepts of Quality Control, including in-process control and product inspection activities.

These experiences strengthened my analytical thinking, attention to detail, and compliance-oriented work practices, while deepening my understanding of the integration between production, quality control, and quality assurance within the pharmaceutical industry.

In addition to my professional experience, my thesis focused on drug development using molecular docking methods to identify potential compounds for treating disease. This research experience increased my interest in Research and Development (R&D), particularly in early-stage drug discovery, data interpretation, and scientific problem-solving. I enjoy exploring how computational approaches support formulation development, product innovation, and scientific decision-making.

I also have a strong interest in the cosmetic field, especially in Quality Control and Regulatory Affairs. I am particularly drawn to regulatory affairs because of its essential role in ensuring product safety, compliance, and proper documentation according to regulatory standards. I enjoy working with regulations, dossier preparation, documentation evaluation, and understanding requirements for product registration, labeling, claims, and post-market surveillance. This area aligns with my strengths in structured documentation, analytical evaluation, and ensuring products meet both scientific and regulatory expectations.

I am a fast learner, proactive, and detail-oriented individual with a strong commitment to quality and continuous improvement. I am eager to contribute my knowledge and enthusiasm to support your company's mission in ensuring product safety, quality, innovation, and regulatory compliance.

Best regards,

Febrina Idha
