PERSONAL INFORMATION

Licensed Pharmacist (Apoteker) with comprehensive experience gained through PKPA rotational internships across hospital pharmacy, pharmaceutical manufacturing, wholesale distribution (PBF), and community pharmacy settings. Skilled in GMP/CPOB implementation, raw material quality control, and GDP/CDOB compliance, developed through hands-on experience in pharmaceutical manufacturing and distribution practice. Proficient in patient counseling, medication management, and pharmaceutical care with a strong emphasis on patient safety. Demonstrated precision, adaptability, and collaboration within multidisciplinary teams, committed to regulatory compliance and continuous service quality improvement.

EDUCATION

Universitas Padjadjaran - Pharmacist Professional Program (GPA 3.70/4.00)	2025 – 2026
Universitas Tadulako - Bachelor of Pharmacy (GPA 3.73/4.00)	2020 - 2024

PROFESSIONAL EXPERIENCE

PKPA - Al-Ma'soem Cikalang Community Pharmacy	<i>October 2025</i>
--	---------------------

- Conducted prescription screening for 50+ prescriptions, including compounding and drug dispensing while ensuring accurate dosage and patient safety.
- Provided Drug Information Services (DIS) to patients regarding proper drug usage, storage, and potential side effects.
- Managed drug inventory through stock opname and implementation of FEFO and FIFO systems to prevent drug expiration.
- Handled pharmacy administrative tasks including procurement documentation and regulatory compliance.
- Learned end-to-end pharmacy operations from supplier management and inventory to direct patient services.

PKPA - PT Bina San Prima (Pharmaceutical Distributor)	<i>September 2025</i>
--	-----------------------

- Supported the Responsible Pharmacist in managing pharmaceutical documentation, including reporting of psychotropic substances and precursors.
- Applied GDP (Good Distribution Practices) principles in quality management systems, facility sanitation, and drug storage.
- Assisted in inventory monitoring of 800 stock items, conducted stock opname, and implemented FEFO and FIFO systems in inventory management.
- Observed cold chain management including temperature monitoring for storage and distribution of pharmaceutical products.
- Handled product return and recall processes while ensuring distribution documentation complied with regulations.

PKPA, Quality Control Department - PT Dankos Farma	<i>July 2025 - August 2025</i>
---	--------------------------------

- Understood GMP (Good Manufacturing Practices) principles including documentation, sanitation, hygiene, and pharmaceutical production quality assurance.
- Performed sampling and testing of active pharmaceutical ingredients (API) and excipients to verify specification compliance.
- Tested 10+ primary and secondary packaging materials to ensure product protection quality standards.
- Implemented laboratory SOPs consistently to maintain data integrity and prevent sample contamination.

- Assisted in verification of Certificates of Analysis (CoA) and ensured documentation met GMP standards.

PKPA, Pharmacy Installation - RSUD Kota Bandung (Regional Public Hospital)

May 2025 – June 2025

- Conducted screening of 50 prescriptions per day with administrative, pharmaceutical, and clinical accuracy in accordance with SOP standards.
- Provided counseling to 15 outpatients to improve medication adherence and therapeutic outcomes.
- Supported pharmaceutical supply chain management through consistent implementation of FEFO/FIFO systems.
- Performed non-sterile drug dispensing and compounding with a 99% preparation accuracy rate in compliance with service standards.
- Monitored patient safety implementation related to High Alert and LASA medications with zero medication error incidents.

ADDITIONAL EXPERIENCE

Laboratory Teaching Assistant – Universitas Tadulako

2023

- Facilitated Pharmaceutical Technology practicum sessions covering formulation and preparation of liquid, semisolid, and solid dosage forms, guiding students through hands-on laboratory procedures.
- Supported Pharmaceutical Biotechnology practicum by assisting students in understanding biotechnological principles and their pharmaceutical applications.
- Evaluated students' practical performance, provided constructive feedback, and assisted in preparation of laboratory materials and reports.

ORGANIZATIONAL EXPERIENCE

Spiritual Division Member - HIMAFAR FMIPA Universitas Tadulako

2023

- Supported spiritual mentoring programs for pharmacy students through regular organizational activities.
- Participated in internal campus events to strengthen student solidarity and character development.

CERTIFICATIONS

Head of Regulatory Affairs Training (Advanced Level) - Latih (Kenal Profesi Program)

August 2026

Basic R&D in Pharmaceutical Industry (Cosmetics) - Ioda Academy

August 2026

Healthcare Regulatory (Pharmaceuticals & Cosmetics) under BPOM Regulations - Ioda Academy

July 2026

SKILLS

Languages: Indonesian (Native) | English (Intermediate).

Tools: Microsoft Word, Microsoft Excel, Microsoft PowerPoint, Pharmacy Information System, LIMS (basic).

Hard Skills:

- **Pharmaceutical Care:** Prescription services, drug dispensing, patient counseling, therapeutic drug monitoring.
- **Quality Control & Assurance:** Raw material testing, in-process control (IPC), GMP compliance, quality documentation, data validation.
- **Regulatory & Distribution:** GDP compliance, regulatory compliance, stock management, cold chain management, reporting.
- **Laboratory & Documentation:** Laboratory SOP implementation, CoA review, data integrity, audit trail.

Soft Skills: Attention to Detail, Integrity, Time Management, Problem Solving, Teamwork, Adaptability, Communication, Accountability, Administrative Management, Initiative, Orientation to Detail.
