SUMMARY

Licensed Pharmacist (Apoteker) with hands-on experience in GMP-regulated pharmaceutical environments, particularly in Quality Assurance, batch record review, and Product Quality Review (PQR). Experienced in supporting documentation control, audit processes, and in-process quality monitoring. Familiar with product knowledge, including traditional medicines, multivitamins, and personal care products. Adaptive, communicative, collaborative, analytical and keen to learn more about market analysis, product materials and promotional programs. Highly interested in pursuing a career as a Product Executive.
