PROFILE

I am a Bachelor of Pharmacy graduate from Setia Budi University with a solid understanding of drug formulation, pharmacology, and drug distribution and management. I am detail-oriented, systematic, and a good communicator. I can also use Microsoft Word, Excel, and Canva to support administrative tasks and health promotion activities. I want to join a dynamic pharmaceutical company or healthcare facility where I can apply my background in pharmacy. With a Bachelor's degree in Pharmacy and hands-on experience from work at pharmacies, I am ready to contribute to the team, learn new things, and grow my skills in drug management, pharmaceutical services, or pharmacy administration.

WORK EXPERIENCE

1. Halodoc Pharmacy

Pharmacist Assistant

(September 2025 - Sekarang)

- Manage the inflow and outflow of medications by applying the FEFO (First Expired, First Out) principle to minimize medication expiration.
- Facilitate the sale of over-the-counter (OTC) and limited OTC medications (such as vitamins and cold remedies) by providing safe, basic advice (for simple self-medication), while remaining under the supervision of a pharmacist.
- Provide patients with concise, clear information regarding medication usage instructions (e.g., whether to take the medication before or after meals, single-dose instructions) and storage requirements.
- Store and organize medication inventory neatly on pharmacy shelves, including ensuring that storage temperatures comply with regulations.
