About Me

I am Lince, a Bachelor of Pharmacy graduate from Brawijaya University (2021) with over three years of experience in the pharmaceutical industry, specializing in analytical documentation, quality systems, and pharmaceutical services. I am currently pursuing my Pharmacist Professional Program at Brawijaya University and am expected to graduate in 2026. Throughout my career, I have developed strong expertise in analytical documentation, literature review, regulatory compliance, and cross-functional collaboration while maintaining a high level of accuracy and attention to detail. My pharmaceutical background, analytical mindset, and effective communication skills enable me to transform scientific information into practical insights that support product development, business objectives, and informed decision-making. I am passionate about continuous learning and eager to contribute to Marketing, Product Executive, Product Specialist, or Product Development roles by combining scientific knowledge with a customer-focused and results-driven approach.

Working Experiences

Quality Control Intern, PT. Balatif

(March, 2026 – April 2026)

- Reviewed and verified 20+ Laboratory Test Reports (LTRs) for raw materials, packaging materials, and finished products by ensuring consistency between analytical results, calculations, and supporting raw data, maintaining compliance with ALCOA+, Good Documentation Practices (GDP), and GMP/CPOB requirements.
- Performed In-Process Control (IPC) for 7+ production batches/day, including physical quality testing to ensure compliance with product specifications and GMP/CPOB.
- Assisted in raw material sampling, Certificate of Analysis (CoA) verification, and analytical sample preparation, including reagent and mobile phase preparation, to support quality control testing.
- Conducted Packaging IPC inspections, including leak testing and label verification, to ensure packaging quality and compliance with product specifications.
- Collaborated with Production, QC, and QA teams to support compliant manufacturing operations, quality documentation, and continuous quality improvement.

Pharmacy Intern, Penta Valent

(February 2026)

- Assisted in implementing **Good Distribution Practices (GDP/CDOB)** throughout pharmaceutical distribution activities.
- Performed incoming goods inspection, inventory monitoring, and **FEFO** implementation to support product quality and inventory accuracy.
- Assisted in product picking, distribution, and verification of distribution documents in compliance with **SOPs** and regulatory requirements.

Pharmacy Intern, Puskesmas Kepanjen

(January 2026)

- Assisted pharmacists in delivering primary healthcare pharmaceutical services, including reviewing 100+ prescriptions to ensure safe, accurate, and rational medication use under pharmacist supervision.
- Prepared, labeled, and dispensed prescription medications while supporting patient counseling and Drug Information Services (DIS) in accordance with Good Pharmacy Practice (GPP) and Standard Operating Procedures (SOPs).
- Supported pharmaceutical inventory management through stock monitoring, drug procurement, receiving, storage, inventory documentation, and FIFO/FEFO implementation to ensure medication quality and availability.
- Participated in health promotion and public education programs to encourage the rational use of medicines and disease prevention within the community.
- Maintained accurate pharmacy documentation and collaborated with pharmacists and multidisciplinary healthcare professionals to support integrated, patient-centered primary healthcare services.

Pharmacy Intern, Apotek Domat Malang

(December 2025)

- Reviewed prescriptions through administrative, pharmaceutical, and clinical screening to ensure safe, accurate, and rational medication use under pharmacist supervision.
- Prepared, compounded, dispensed, and labeled medication items, while maintaining compliance with Good Pharmacy Practice (GPP) and pharmacy Standard Operating Procedures (SOPs).
- Provided medication counseling to 30+ patients and supported OTC/self-medication services by delivering evidence-based drug information under pharmacist supervision.
- Assisted in pharmaceutical inventory management, including stock monitoring, product receiving, storage, expiry-date control, and FIFO/FEFO implementation to ensure medication quality and availability.
- Maintained accurate dispensing records and collaborated with pharmacists and pharmacy technicians to support safe, efficient, and patient-centered pharmacy services.

Medical & Disaster Relief Logistics (Volunteer)

(03 Dec, 2025 – 17 Dec, 2025)

- Managed the end-to-end supply chain of 1,000+ pharmaceutical products, medical consumables, and healthcare equipment, ensuring timely procurement, storage, and distribution across emergency healthcare service points.
- Coordinated daily logistics operations to support 53 emergency response personnel while maintaining uninterrupted post operations during disaster response.
- Managed the distribution of 1,000+ donated items and coordinated with BPBD/BNPB to ensure timely, accurate, and accountable humanitarian aid delivery.
- Monitored and audited 1,000+ inventory items, implementing inventory control, expiry-date monitoring, and appropriate storage practices to maintain product quality and availability.
- Planned and executed medical supply distribution to remote disaster-affected areas by prioritizing urgent healthcare needs and optimizing logistical efficiency.
- Prepared 50+ daily logistics and inventory reports, ensuring accurate documentation, data integrity, and transparent reporting for operational and stakeholder accountability.

Pharmacy Intern, University of Muhammadiyah Malang Hospital

(Oct 2025 – Nov 2025)

- Reviewed 150+ outpatient and inpatient prescriptions to ensure appropriate dosing, rational drug use, and identification of potential drug interactions under pharmacist supervision.
- Participated in 20+ Drug Therapy Monitoring (DTP/MTM) case discussions and assisted in Adverse Drug Reaction (ADR) monitoring and documentation following hospital pharmacovigilance procedures.
- Prepared, dispensed, and verified 300+ medication items while ensuring compliance with hospital SOPs, Good Pharmacy Practice (GPP), and patient safety standards.
- Assisted in pharmaceutical inventory management through stock monitoring, FIFO/FEFO implementation, and expiry-date control to maintain medication quality and availability.
- Collaborated with pharmacists and nurses to support safe, effective, and patient-centered pharmaceutical care.

Analytical Document Analyst, PT. Pharos Indonesia

(March, 2023 – December 2024)

- Managed 50+ analytical document workflows annually, ensuring timely completion and effective coordination with cross-functional teams and supervisors.
- Conducted 30+ literature reviews to support analytical method development, contributing to robust scientific strategies and improved laboratory outcomes.
- Prepared 100+ analytical reports, method validation protocols, and validation reports in compliance with regulatory and quality requirements.
- Supported regulatory documentation and compliance activities by ensuring analytical documents met internal standards and applicable pharmaceutical regulations.
- Issued 200+ Certificates of Analysis (CoAs) with a strong focus on data integrity, accuracy, and compliance with quality specifications.
- Maintained laboratory documentation and operational standards in accordance with CPOB, GMP, GLP, and 5R principles, contributing to a 40% reduction in documentation discrepancies through improved workflow control and quality practices.
