

Savira Salsabila Edison

Bekasi, West Java | +62812-7041-7849 | savirasalsabila87@gmail.com

SUMMARY

Pharmacist with a strong foundation in pharmaceutical formulation, manufacturing processes, and analytical development through academic research and pharmaceutical industry internships. Experienced in understanding dosage form characteristics, GMP-compliant manufacturing workflows, technical documentation, and cross-functional collaboration. Passionate about supporting pharmaceutical packaging development through analytical problem solving, product understanding, and continuous improvement.

EDUCATION

Andalas University Pharmacist Professional Program (Apothecary) GPA: 3.99/4.00	Padang, West Sumatra 2025 – 2026
Andalas University Department of Pharmacy GPA: 3.80/4.00	Padang, West Sumatra 2020 – 2024

INDUSTRIAL & LABORATORY EXPERIENCE

Pharmaceutical Manufacturing Internship – Caprifarmindo Laboratories Production Department - Developed understanding of pharmaceutical packaging processes, including packaging material preparation, line clearance, coding verification, batch documentation, and in-process quality checks under GMP requirements. - Actively assisted in SOP revisions and Change Control documentation, ensuring strict adherence to production quality guidelines. - Assisted documentation activities related to Change Control, CAPA, and deviation management to support process consistency and continuous improvement. - Collaborated with Production, QA, QC, Warehouse, and Engineering teams to understand end-to-end pharmaceutical product development and manufacturing workflows.	Cimahi, West Java July – August 2025
Undergraduate Thesis – Analytical Method Development of Plant Extra Academic Research - Developed and optimized a high-precision analytical method for plant-based active compounds using UV-Vis Spectrophotometry and TLC-Densitometry. - Executed full analytical method validation parameters encompassing linearity, accuracy, precision, LOD, and LOQ in accordance with standard research guidelines. - Conducted parameter optimization and robustness testing to achieve highly reproducible and accurate analytical results. - Interpreted complex experimental data sets to evaluate method performance, reliability, and chemical stability.	Padang, West Sumatra March – July 2024
Faculty of Pharmacy – Andalas University Laboratory Teaching Assistant - Supervised practical laboratory sessions for 25+ students, focusing on precision, safety compliance, and rigorous scientific documentation control. - Assisted in meticulous technical data interpretation and record management, sharpening analytical verification skills essential for material evaluation.	Padang, West Sumatra 2022 – 2024
Pharmaceutical Compounding & Formulation Practice Academic Practice - Understanding of dosage forms, formulation characteristics, excipient functionality, and product quality requirements. - Evaluated critical physical characteristics, including pH, viscosity, dissolution tendencies, and homogeneity of finished preparations	Padang, West Sumatra 2022 – 2023

OTHER PROFESSIONAL EXPERIENCE

Hospital – RS Otak DR. Drs. M. Hatta Bukittinggi

Bukittinggi, West Sumatra

Internship Team Leader

August – September 2025

- Led a team of 15 pharmacy interns representing Andalas University during a collaborative internship involving four universities, ensuring timely completion of assignments, effective communication with supervisors, and compliance with documentation standards.
- Ensured compliance with documentation standards and operational procedures.

Primary Healthcare (Puskesmas) – Puskesmas Rawang

Padang, West Sumatra

Internship

May – June 2025

- Performed prescription screening, dispensing, and medication handover for 75+ prescriptions while ensuring medication accuracy and inventory availability.

Pharmaceutical Distributor (PBF) – Tri Sapta Jaya

Muara Bungo, Jambi

Internship

May 2025

- Maintained product traceability and inventory documentation to support GDP compliance and operational accuracy.
- Processed and verified 100+ purchase orders from pharmacies, hospitals, clinics, and drug stores while ensuring documentation accuracy and GDP compliance.

Apotek (Community Pharmacy)

Muara Bungo, Jambi

Internship

April – May 2025

- Conducted self-medication assessment, dispensing, patient counseling, and inventory management for more than 75 prescriptions under pharmacist supervision.

ORGANIZATIONAL EXPERIENCE

Pharmacy English Club – Faculty of Pharmacy, Andalas University

Padang, West Sumatra

Program Coordinator

March – December 2023

- Led the end-to-end execution of three educational programs, including TOEFL Training, IELTS Training, and an Offline TOEFL Simulation.
- Coordinated project timelines, logistics, and stakeholder communication for events attended by more than 70 participants.
- Collaborated with external speakers and internal committees to ensure successful program delivery.

Student Executive Board (BEM KM Faculty of Pharmacy)

Padang, West Sumatra

Department Secretary

2022

- Managed documentation, correspondence, and administrative records supporting 8 departmental programs and 3 major organizational events.
- Coordinated proposal preparation, stakeholder communication, and administrative processes to ensure smooth execution of organizational activities.
- Maintained systematic document archiving and facilitated communication between students and faculty.

SKILLS & INTERESTS

Pharmaceutical Development: Dosage Form Development, Pharmaceutical Formulation, Excipient Functionality, Product Quality Evaluation

Packaging & Manufacturing: GMP/CPOB, Packaging Process Awareness, Manufacturing Workflow, Batch Documentation, In-process Control

Analytical: Analytical Method Development, UV-Vis, TLC Densitometry, Data Analysis

Tools: Microsoft Word, Microsoft Excel, Microsoft PowerPoint

Certificate: Pharmacist Competency Certificate, Good Manufacturing Practices (GMP/CPOB), Quality Assurance in Pharmaceutical Industry, Microsoft Excel Basic Formula, Quality Assurance Document, Quality Assurance Strategies in Pharmaceutical Toll Manufacturing, Pemahaman Sistem Jaminan Produk Halal (SJPH) yang Efektif

Language: Bahasa Indonesia (Native), English (Professional, TOEFL Prediction Score: 510)

Interest: Pharmaceutical Packaging Development | Product Development | Pharmaceutical Manufacturing | Continuous Improvement
