A highly motivated Pharmacy graduate from Gadjah Mada University, combining strong clinical and industrial foundations with keen interest in industrial pharmacy. Known for being target-oriented and consistently achieving high standards. Thrives in dynamic environments where multidisciplinary expertise can emerge. Combines strong analytical and problem-solving capabilities with proven leadership experience managing cross-functional teams. Committed to developing pharmaceutical manufacturing excellence through innovation and adherence to industry best practices.

EDUCATION

Universitas Gadjah Mada

Yogyakarta, Indonesia

Apothecary Profession

Aug 2025 - Now

Bachelor of Pharmacy (GPA 3.70/4.00)

Aug 2021 - Feb 2025

[Thesis] Assessing Patient Satisfaction Regarding Pharmaceutical Services across Community Pharmacies in West Jakarta

[Related Coursework] Pharmacology, Toxicology, Microbiology, Analytical Chemistry, Organic Chemistry, Phytotherapy, Community Pharmacy, Pharmacoeconomy, Pharmacotherapy, Management Pharmacy, Solid Formulation, Semi-solid Formulation, Sterile Formulation, CPOB, Chromatography, Clinical Pharmacy, Regulatory Pharmacy.

WORKING EXPERIENCE

Novell Pharmaceutical Laboratories - Clinisindo Laboratories

Jakarta, Indonesia

Quality Control Intern [Apothecary Internship]

Apr 2026 - May 2026

- Prepared and reviewed analytical reports for 8 different batches covering assay, dissolution, related substances, and impurities testing. Ensured the accuracy, reliability, and compliance of analytical results with applicable compendial requirements prior to client submission.
- Validated 20 validation worksheets used in client validation method analysis projects, ensuring the accuracy, completeness, and traceability of analytical documentation. Reviewed test records for assay, impurities, dissolution, and related substances analyses to support data integrity, quality control, regulatory compliance, and risk mitigation throughout the analytical process complying to ISO:9001, BPCRS, EPCRS, and FICRS.
- Managed end-to-end analytical testing processes, including operation of HPLC, GC, FTIR, AAS, and UV-Vis instruments, data interpretation, and analytical reporting. Reviewed chromatographic and spectroscopic data to ensure accuracy, reliability, and compliance with established procedures. Utilized LabSolutions and Chromeleon software to process, analyze, and report results for 10+ samples.

Bethesda Hospital

Yogyakarta, Indonesia

Clinical Pharmacist [Apothecary Internship]

Feb 2026 - Mar 2026

- Conducted a Drug Use Evaluation (DUE) on fosfomycin as a Project Leader, leading 27 members assessing fosfomycin intravenous utilization in inpatient ward setting across 70+ patients from various surgical procedures to support rationale and accurate antibiotic prescribing and ensure patients safety.
- Conducted procurement planning for 30 pharmaceutical products using the ABC-VEN analysis method, considering lead time, Reorder Point (ROP), minimum, and maximum stock levels to ensure optimal inventory management control. Evaluated and proposed 2 new drug additions to the hospital formulary through comparative analyses of existing and proposed medications, focusing on clinical efficacy, safety, and cost-effectiveness.

SwipeRx

Depok, Indonesia

Distribution Pharmacist [Apothecary Internship]

Jan 2026

- Revalidated 1000+ purchasing orders (PO) and invoice documents from retail customers, ensuring their legality, eligibility, and credibility matched as per the database for the procurement process to be further progressed.
- Reviewed 10+ return documents per day that consist of 15+ stock keeping units (SKUs) for each PO, enabling complaint handling process for returned products matched coherently with the return policy.
- Handled inventory control process, warehouse operations, inbound and outbound, also logistics management, assuring the distribution of 3000+ SKUs products flowed within Good Distribution Practice (GDP).

Apotek Insaan Farma

Yogyakarta, Indonesia

Community Pharmacist [Apothecary Internship]

Nov 2025 - Dec 2025

- Developed a feasibility study for pharmacy development, focusing on various key aspects such as SWOT analysis (ST, SO, WT, WO strategy), financial analysis (PBP, ROI, ROA), marketing analysis (7P - Price, Product, Place, Physical Evidence, People, Promotion, Process), and business analysis to ensure profitability within a 5-year period.
- Ensured a comprehensive procurement and inventory management cycle, handling the rotations on a weekly basis for approximately 15-20 drugs, reducing dead stocks and empty stocks, keeping a decent flow of rotations as per the operations running.

ORGANIZATIONAL EXPERIENCE

BEM KMFA UGM

Yogyakarta, Indonesia

Head of Student Resource Development

Dec 2023 - Dec 2024

- Collaborated with the co-head to oversee and successfully execute 12 work programs and manage 11 members at PSDM, ensuring strict alignment with key performance indicators to drive exceptional results.
- Demonstrated proactive leadership by contributing to internal oversight across 6 presidiums, 2 administrative units, and 11 departments with over 150+ members, ensuring compliance with faculty regulations.
- Conducted recruitment processes for over 100+ applicants, selecting 80+ qualified candidates, and gained a comprehensive understanding of member recruitment procedures.

PROJECTS

Product Development Novell : Trial Formulation Candesartan-Hydrochlorothiazide Product

- Performed trial formulation for Hydrochlorothiazide (HCT)-Candesartan tablets formulations by evaluating physicochemical properties of active pharmaceutical ingredients and excipients. Optimized formulation design through adjustment of intra-granular and extra-granular phases, while considering manufacturing methods (granulations or direct compression) and process parameters to ensure tablet quality and compliance with required pharmaceutical testing specifications.
- Conducted comparative preformulation studies and literature reviews for Hydrochlorothiazide (HCT)-Candesartan tablets to identify optimal excipient combinations, manufacturing methods, and testing strategies. Utilized scientific and product-based evidence to support the development of a robust formulation and analytical approach for a new product development

PKM-RE 2023: Protein-Enriched Gummy Supplements from Ulut Sagu (*Rhynchophorus ferrugineus*) for Stunting Prevention

- Assigned to calculate the formulation, research budget, and provide the research schemes
- Evaluated the proposal research procedure and ensured feasibility around the chosen topics
- Improved the intervention of ulat sagu in gummy candy as an alternative adherence development for stunting prevention

HONORS & AWARDS

- **[International]** First Runner-Up (Second Winner) Clinical Skill Event Advanced Level by IPSF APRO 2024
- **[National]** Awardee Yayasan Marga Pembangunan Jaya Marga Scholarship 2023/2025

LICENSES & CERTIFICATIONS

- **[Jadi Praktisi]** Masterclass Cosmetic Regulation and Formulation Mastery
- **[Jadi Praktisi]** Go-to-Market Strategy: Business and Product Development Cosmetic dan Supplement
- **[Jadi Praktisi]** Regulatory Affairs in Pharmaceuticals, Cosmetics, Natural and Supplement Products
- **[Jadi Praktisi]** Regulatory Affairs for Medical Devices: Pemahaman Alur Registrasi dan Persyaratan Teknis
- **[EF Set]** English Certification (C1 Advanced)
- **[Englishvit]** TOEFL ITP Certification (Score: 533/677)

SKILLS & OTHER EXPERIENCES

- **[Skills]** Leadership, Public Speaking, Effective Communication, Teamwork, Time Management, Risk Management, Analytical Skills, Problem Solving, Work Ethic, Data Analysis, and Decision Making skills
- **[Tools]** Google Workspace, Microsoft Office, and Canva
- **[Languages]** English (Advanced), Indonesian (Native)
