PROFILE

Licensed Pharmacist from Universitas Indonesia with experience in quality assurance, regulatory compliance, and pharmaceutical documentation. Experienced in gap assessments, SOP review and revision, and ensuring compliance with CPOB/GMP regulations. Possesses a strong foundation in analytical testing through thesis research on the determination of specific and non-specific quality parameters of herbal simplicia and extracts. Demonstrates strong analytical thinking, attention to detail, and documentation skills, with an eagerness to contribute to analytical development within the pharmaceutical industry.

EDUCATION

Universitas Indonesia <i>Pharmacist Professional Program</i>	Feb 2025 – May 2026 (GPA: 3,85 / 4,00)
Universitas Ahmad Dahlan <i>Bachelor of Pharmacy</i>	Ags 2020 – Jun 2024 (GPA: 3,69 / 4,00)
- Thesis: Determination of Specific and Non-Specific Quality Parameters of Akar Kuning (<i>Arcangelisia flava</i> L.) Simplisia and Extract	

PROFESSIONAL EXPERIENCE

RS Universitas Indonesia <i>Pharmacist Intern</i>	Sep 2025 – Oct 2025
- Performed prescription screening and medication dispensing for outpatient, inpatient, and ICU units, ensuring accuracy and patient safety in all pharmaceutical services. - Provided drug information services, conducted medication reconciliation, and drug therapy monitoring. - Supported sterile and non-sterile compounding activities in accordance with aseptic principles and pharmaceutical standards to maintain product quality and safety. - Conducted health promotion activities on worm infections, improving awareness of prevention and appropriate treatment.	
Kalbe International Pte. Ltd. <i>Global Quality Assurance Intern</i>	Jul 2025 – Aug 2025
- Conducted gap assessments on 20+ Kalbe Corporate Quality Manuals (KCQM) against SOPs of Kalbe Myanmar (KMC) and Orange Kalbe Limited (OKL), to identify compliance gap and potential quality risk, ensuring alignment with corporate quality standards and CPOB/GMP requirements. - Reviewed and revised SOP documents to ensure alignment with Corporate Quality Manual requirements. - Collaborated with cross-functional QA teams to present compliance gap findings, discuss corrective actions, and support continuous improvement of the quality management system.	
PT Enseval Putera Megatrading Tbk – RDC West Java <i>Pharmacist Intern</i>	Jun 2025
- Ensured the quality and stability of cold chain pharmaceutical products through incoming inspection and daily temperature monitoring, in compliance with CDOB/GDP requirements during receipt and storage. - Performed documentation and tracking activities for cold chain clinical trial products, supporting data accuracy, traceability, and compliance throughout storage operations. - Supported cold room temperature mapping activities in accordance with regulatory requirements, analyzing temperature distribution to identify critical monitoring points and ensure storage condition consistency. - Gained hands on exposure to cold chain management and pharmaceutical distribution processes, emphasizing product quality, storage control, and regulatory compliance.	
Apotek Roxy Biak, Jakarta <i>Pharmacist Intern</i>	May 2025
- Managed pharmaceutical inventory including stock opname, receiving, storage (FIFO/FEFO), and reporting of narcotics and psychotropics through the SIPNAP system. - Conducted prescription screening, medication dispensing, drug information services, and self-medication counseling to ensure appropriate drug use. - Performed Pareto analysis on cholesterol medications from February to April 2025 to identify usage patterns and inventory priorities.	

Pharmacist Intern

- Conducted 700+ prescription screening, medication dispensing, and drug information services over 2 weeks.
- Delivered health promotion on rational antibiotic use to promote awareness and prevent antibiotic resistance.
- Assisted in PIRT (Home Industry Food Products) surveys, including interviews and sanitation assessments, to support product safety and regulatory compliance.
- Assisted in pharmacy screening activities at Cipayung area to evaluate compliance with regulatory requirements and operational standards.
