PROFILE

I am a graduate of Civil Engineering from Jenderal Achmad Yani University with a GPA of 3.23 on a scale of 4.00. I currently hold the position of Supervisor Building Maintenance & Workshop Engineering. I am a detailed person, and responsible for my work. I like working in the office or in the field so that I am able to know the conditions directly in the field. I am able to handle a team or coordinate with vendors very well.

EXPERIENCE

June 2025 – Now

Supervisor Building Maintenance & Workshop Engineering, PT Indolakto (Indofood CBP)

Responsible for managing the operation and maintenance of buildings and supporting facilities, Supervise both preventive and corrective maintenance activities for civil infrastructure (structures, roofing, flooring), building utilities, and production areas, Lead a maintenance team in handling routine maintenance and emergency repairs in building and workshop areas, Coordinate with internal teams and external vendors for large-scale projects such as floor repair, painting, and steel structure installation, Develop and monitor weekly job schedules using the Task Job Order (TJO) system, Implement 5S and Safety (K3) principles in all maintenance activities to ensure safe and efficient operations, Conduct regular inspections and prepare non-conformity reports with improvement suggestions (Kaizen), Actively involved in improvement initiatives such as additional safety valve piping, pipeline routing, and workspace layout optimization.

November 2023 – May 2025

Building Maintenance Engineering, PT Daesang Food Indonesia

Handle new building extension projects, Handle HVAC & Utility systems, Handle overall building repair and maintenance programs, handle building renovation or addition planning and building control reviews, Create annual building management budgets, control teams or vendors in carrying out repairs, renovations or reviews.

May 2023 – November 2023

Site Engineering, PT Nusa Raya Cipta, Tbk.

Handle As Built Drawing, Handle control documents, Handle weekly meetings with owners, Handle project schedule plans, Handle project cost estimates, Handle material needs in the field, Control & communicate with subcontractors, Control material quality, Control actual schedules, Create work methods.

October 2022 – April 2023

Site Administrator Project Engineer, *PT Berdikari Pondasi Perkasa, Tbk.*

Handle manpower for Bore Pile and Piling work, Handle control documents, Handle project asset and inventory data, Handle project schedule plans and actuals, Handle project budgets, Handle foundation testing, Handle work methods.
