Dear HR Department of PT Mersifarma Tirmaku Mercusana,

I am writing to express my interest in joining PT. Mersifarma Tirmaku Mercusana as a Production Supervisor. I have professional experience as a Production Supervisor at PT. Graha Farma, where I gained hands-on experience in managing and supervising pharmaceutical manufacturing processes while ensuring compliance with GMP/CPOB requirements.

In this role, I was responsible for planning, organizing, supervising, and evaluating production activities to achieve production targets while maintaining quality, safety, hygiene, and CPOB compliance. I also have experience monitoring OEE, productivity, production output, efficiency, material utilization, and downtime, as well as identifying and resolving production issues to minimize defects, waste, and production losses.

Furthermore, I have experience in deviation investigations, Root Cause Analysis (RCA), 5 Why Analysis, risk assessments, CAPA, and Change Control, while supporting validation activities and continuous improvement through cross-functional collaboration with QA, QC, Technical Support, Engineering, Warehouse, and other related departments. These experiences have strengthened my leadership, problem-solving, analytical thinking, teamwork, communication, and decision-making skills, as well as my ability to work effectively in a shift-based and high-pressure production environment.

With my professional experience and pharmaceutical background, I am confident that I can contribute to improving product quality, productivity, operational efficiency, CPOB compliance, and production target achievement at PT. Mersifarma Tirmaku Mercusana. I would welcome the opportunity to further discuss my qualifications and how I can contribute to your organization.

Please find attached the following documents for your consideration:

1. Curriculum Vitae (CV)

Thank you for your time and attention.

Sincerely,
Fahmi Alief Maulana

FAHMI ALIEF MAULANA

Registered Pharmacist

Pharmacist with a Professional Pharmacist degree and experience as a Production Supervisor at PT. Graha Farma, a pharmaceutical manufacturing company. Experienced in planning, supervising, and evaluating production activities in compliance with GMP, CPOB, SOPs, quality, safety, hygiene, and housekeeping standards. Skilled in monitoring OEE, productivity, output, efficiency, material utilization, and downtime, as well as resolving production issues to minimize defects, waste, and losses. Experienced in deviation investigation, RCA, 5 Why's Analysis, risk assessment, and CAPA, while supporting continuous improvement through process optimization and cross-functional collaboration. Demonstrates strong discipline, attention to detail, adaptability, teamwork, and compliance in a shift-based production environment.

EDUCATION

Bachelor of Pharmacy - Muhammadiyah University of Surakarta

Agustus 2021 - April 2025 | Cumulative GPA : 3.58 / 4.00

- Experienced as a teaching assistant (basic chemistry practicum, instrumental analysis, food and cosmetic analysis, biochemistry, FTS Solid, FTS Non-Solid) and English mentor on campus.

Apothecary Professional - Muhammadiyah University of Surakarta

March 2025 - April 2026 | Cumulative GPA : 3.84 / 4.00

- Completed a professional internship in diverse pharmacy practice environments, acquiring hands-on experience under licensed pharmacist supervision.

WORK EXPERIENCE

PT. Graha Farma - Karanganyar, Central Java

April - September 2026

Industrial Pharmacist - Production Supervisor

- Supervised and ensured the execution of end-to-end manufacturing processes, from raw material preparation and intermediate processing to bulk and finished products, in accordance with approved procedures and Good Manufacturing Practices (GMP/CPOB).
- Planned production schedules, monitored production activities, evaluated production performance, and initiated improvements to enhance operational effectiveness, efficiency, productivity, and achievement of production targets.
- Led investigations into production deviations and process nonconformities by performing Root Cause Analysis (RCA), impact assessment, developing and monitoring appropriate Corrective and Preventive Actions (CAPA).
- Conducted Overall Equipment Effectiveness (OEE) analysis on tablet stripping equipment to identify key sources of downtime and process inefficiencies, and initiated improvement actions that resulted in a 10% reduction in downtime.
- Ensure the implementation of sanitation, hygiene, and cross-contamination risk control in production areas.
- Reviewed and evaluated Batch Processing Records (BPR), Batch Packaging Records (BPR), and other production documentation to ensure compliance with approved procedures, actual manufacturing processes, and Good Documentation Practices (GDP).
- Designed, evaluated, and supervised the implementation of Change Controls related to manufacturing processes, considering their potential impact on product quality, processes, validation status, analytical methods, batch documentation, and the pharmaceutical quality system.
- Developed, revised, and updated Standard Operating Procedures (SOPs), Work Instructions (WIs), production protocols, process procedures, and other manufacturing-related documents to ensure standardized and compliant operations.
- Collaborated cross-functionally with QA, QC, TS, Engineering, and Warehouse to resolve production issues, conduct investigations, implement CAPA, support validation, and drive continuous improvement.

PT. Dipa Pharmalab Intersains - Majalengka, West Java

June - July 2025

Industrial Pharmacy Internship - Apothecary Professional Practice (PKPA)

- Managed quality document control activities, including preparation, review, revision, and distribution of GMP documents such as SOPs, Batch Manufacturing Records (BMR), Batch Packaging Records (BPR), and controlled forms, ensuring full compliance with BPOM regulations and internal quality standards.

WORK EXPERIENCE

- Conducted product and process risk assessments as part of Quality Risk Management (QRM) activities, identified potential production and packaging risks, monitored Overall Equipment Effectiveness (OEE), and assisted in planning and implementing appropriate risk mitigation actions to improve efficiency and quality performance.

PT. Tirta Husada Farma - Pati, Central Java

October 2025

Distribution Pharmacy Internship - Apothecary Professional Practice (PKPA)

- Analyzed the implementation of Good Distribution Practices (GDP) as part of regulatory compliance evaluation.
