I'm a pharmacist professional student passionate about pharmaceutical formulation, quality testing, and regulatory gap analysis. In my undergraduate thesis, I hands-on developed formulations focusing on stability and efficacy. During my pharmacy internship in R&D extension (Technical Service), I gained expertise in pharmacopoeia method updates (Analytical Development Update), supported gap analysis creation including review and assistance in change control post-regulation audits for drug marketing authorization renewals while integrating QC regulations into innovative product.

Work Experiences

PT. Ferron Par Pharmaceuticals - Bekasi

Jun 2025 - Jul 2025

Pharmacist Intern

- Carried out gap assessments of pharmaceutical products against current pharmacopoeial standards
- Supported the preparation of change control documentation for the TS Lab opinion section, ensuring compliance with quality and regulatory standards
- Observed product development method and testing processes, including problem identification and resolution in the pharmaceutical industry

Jenderal Soedirman University - Purwokerto

Sep 2024 - Dec 2024

Laboratory Assistant of Pharmaceutical Analysis

- Learn and understand in drug analysis techniques using UV-Vis and HPLC instruments
- Supervised and guided 20 students during lab practicals, ensuring follow and full compliance with SOPs effectively
- Evaluated student performance and grades based on competencies and supporting documentation

Jenderal Soedirman University - Purwokerto

Sep 2023 - Dec 2023

Laboratory Assistant of Biopharmaceutical

- Learn and understand conducting biopharmaceutical tests, including dissolution and Franz diffusion cell methods
- Supervised and guided 20 students during lab practicals, ensuring follow and full compliance with SOPs effectively
- Evaluated student performance and grades based on competencies and supporting documentation

Education Level

Universitas Jenderal Soedirman - Purwokerto

Feb 2025 - Apr 2026 (Expected)

Apothecary, 4.00/4.00

Universitas Jenderal Soedirman - Purwokerto

Aug 2020 - Aug 2024

Bachelor of Bachelor of Pharmacy, 3.62/4.00

- Thesis (2024) : Formulation of Nanocream Essential Oil from Cinnamon Bark (*Cinnamomum Burmannii*) with Tween 80 and PEG 400 Combination as Anti-Acne

Organisational Experience

Himafar (Himpunan Mahasiswa Farmasi) Unsoed - Purwokerto

Feb 2022 - Dec 2022

Internal Department Staff

- Led "SEKOLAH HIMAFAR" sessions on organizational rules and regulations
