Quality Control/Quality Assurance Analyst

- Review the content, completeness, and validity of Batch Records and analyze raw data for product release.
- Monitored the production process (Mixing, Filling, Packing) and recorded observations on the CCP (Critical Control Point) checklist.
- Conduct product testing of Raw Materials, Packaging Materials, Semi-Finished Goods, and Finished Goods in the laboratory in accordance with applicable specifications and quality standards, and produce accurate and timely testing reports.
- Prepared and reviewed quality documents such as SOPs, protocols, and other analytical certificates.
- Conduct control and handling of deviations that occur during the production process.
- Assisting supervisors with various new Trial Projects, such as revisions or changes to the latest packaging designs.
- Assisting superiors by providing various suggestions and input related to improvements, thereby facilitating their decision-making process.
- Assisting supervisors in releasing goods that have been inspected, such as Incoming Material, Raw Material, and Finished Goods.
- Handling the inspection and monitoring of retained sample products that have been released and distributed in the market periodically.
- Conduct Proof Print On the Spot (PPOS) on the packaging with the latest design to be created.
- Making and preparing CAPA (Corrective Action and Preventive Action) and checking the consistency of the improvement process internally/with suppliers.

About Me

I am a professional QC/QA Analyst with over seven years of experience in the Japanese hair-coloring cosmetics manufacturing industry. I possess strong capabilities in pharmaceutical product testing control and quality auditing. I also have a solid understanding of GMP (Good Manufacturing Practices), CPKB (Good Manufacturing Practices for Cosmetics), data analysis, and problem-solving. I am a meticulous, responsible, and results-oriented individual.

Expertise

Hard skill

- GMP (Good Manufacturing Practise)
- CPKB/CPOB
- HACCP (Hazard Analysis Critical Control Point)
- CAPA (Corrective Action and Preventive Action)
- Microsoft Office
- Quality Management System
- Filling Document

Soft Skill

- Strong Analitical
- Leadership
- Problem solving
- Komunikatif
- Team Work

Sertifikat

- Horenso
- Pharmacy Seminar Certifcte
- Quality Control Training Certificate
