As a graduate of the Physics department at the Faculty of Science and Technology of UIN Jakarta, I bring a unique combination of a strong educational background and extensive organizational experience as a leader. I am highly dedicated to personal development and have a deep interest in the fields of administration, finance, accounting, communication, data analysis, and development. I am prepared to take on new challenges in the professional world. The analytical skills I acquired during my studies and my demonstrated leadership in various organizations make me an adaptive, proactive individual who is ready to contribute to the growth of the company. I am very enthusiastic about bringing this spirit into a dynamic and innovative work environment.
