PROFILE

I am a Pharmacist graduate from University of Sumatera Utara with experience through Pharmacist Professional Internship in the pharmaceutical industry, hospitals, community health centers, pharmacies, and pharmaceutical wholesalers. I have a good understanding of solid dosage production processes, Good Manufacturing Practices (GMP), production process monitoring, documentation, and process control. I am collaborative, detail-oriented, responsible, adaptable, disciplined, and able to work under pressure. I am committed to continuous professional development and contributing to the production of high-quality pharmaceutical products in accordance with established standards.
