I am a Bachelor of Pharmacy graduate (GPA 2.82) and a student in the Apothecary Professional Program (Licensed Pharmacist) at Universitas Muhammadiyah Surakarta (Accreditation A), 23 years old, and a fresh graduate set to officially graduate in October 2026. I have Internship (PKPA) experience specifically in Quality Control (QC) as well as other operational areas within the pharmaceutical industry, hospitals, distribution, retail pharmacies, and Public Health Centers (Puskesmas). I understand the manufacturing, development, and testing processes of pharmaceutical products (solid, liquid, and sterile dosage forms), their implementation according to CPOB (GMP/cGMP), Good Documentation Practice (GDP), BPOM regulations, and quality systems. I am familiar with laboratory analytical instruments such as HPLC, GC, UV-Vis Spectrophotometer, FTIR, and Dissolution Testers. Supported by analytical thinking, problem-solving, attention to detail, excellent communication and teamwork skills, English proficiency (at least passive), and proficiency in Microsoft Office (especially Ms. Excel and Word), I am detail-oriented, disciplined, systematic, and demonstrate high integrity as well as a strong commitment to quality and regulatory compliance. I am accustomed to working independently or in a team, ready to work with targets under pressure.
