

IMADDUDINHARIZARRASYID

Duren Sawit, East Jakarta

+62 813-1569-3902

imaddudinharizarrasyid@gmail.com

PROFILE SUMMARY

Having experience as Microbiology Analyst, Qualification & Calibration Staff, Validation Staff, Quality Assurance Staff and Analytical Development Staff. Implementing *Good Laboratory Practices*, data integrity and time management in performing analysis, also reporting work results according to *Good Document Practices*.

EDUCATION

Jakarta II Health Polytechnic

2016 - 2019

Associate Degree (DIII) - Pharmaceutical and Food Analysis with GPA : 3,27

Indonesia Open University

Bachelor's Degree (S1) - Food Technology

2021 - 2023

WORK EXPERIENCE

Quality Control Microbiology

January 2020 - July 2020

PT. Dankos Farma Tbk. (Kalbe Group)

- Microbial testing, specific microbes, endotoxin and bio-burden.
- Gram staining identification continue with microscopes.
- Experienced using VITEK2 Microbiology Analyzer

Qualification & Calibration Staff

November 2020 - January 2022

PT. Kimia Farma Tbk. (Jakarta Plant)

- Re qualified laboratory instrument such as Dissolution Tester, Autoclave Sterilizer, Laminar Air Flow, Bio Safety Cabinet and Pharmaceutical Refrigerator.
- Re qualified production equipment such as Super Mixer Granulator, Tableting Machine, Stripping Machine, Tumbling Mixer V - Mixer and Fluid Bed Dryer.
- Re qualified HVAC (Heat Ventilating Air Conditioning) including parameters such as Humidity, Pressure, Air Change, Integrity HEPA Filter, Flow Pattern, Recovery Time, Particle Airborne and Microbiology.
- Having experience using measuring instruments such as Digital Tachometer, Thermocouple, Air Flow Meter, Micromanometer, ATI Photometer, Particle Counter Portable.

Validation Staff

February 2022 - June 2022

PT. Kimia Farma Tbk. (Jakarta Plant)

- Re validation production process, created validation protocols and validation reports.
- Performed sampling and re-validation analysis of production process including Granulation & Drying, Sieving & Mixing, Tableting and Coating.
- Experienced using instrument such as Friability Tester, Disintegration Tester, Moisture Analyzer, Hardness Tester, Dissolution Tester, Analytical Balance, Spectrophotometer UV - VIS and HPLC.

Quality Assurance Staff

September 2022 - December 2022

PT. Herlina Indah (Enesis Group)

- Re calibration production equipment such as VMP Mixer, Pneumatic Mixer, Stand Mixer and Slurry Mixer.
- Re calibration production utility such as Flow Meter, Pressure Gauge.
- Handled commissioning with vendor or supplier.
- Documenting batch packaging records and batch production processing records.

Analytical Development Staff

May 2023 - Present

PT. DIPA Pharmed Intersains

- Performed trial and validation methods with parameter such as Selectivity, Robustness, Ruggedness, Precision, Accuracy and Linearity.
- Performed sample stability testing 0 - 24 months with various conditions such as room temperature, humidity climatic chamber and sun exposure.
- Managing Aqua distillate availability for analysis using Water Purifier Sartorius.
- Experienced using instrument such as HPLC, Spectrophotometer UV - VIS, Dissolution Tester, Moisture Analyzer.
- Performed titration with various method such as Acid titration, Base titration, Iodine titration, Permanganate titration.
- Managing Analysis and HPLC Waste according to the category (organic, acid, base).
- Performed thin layer chromatography followed by observation using 254 nm and 365 nm UV lamps.
