PROFILE

I am a licensed pharmacist and graduate of the University of Indonesia with a strong interest in pursuing a career in the pharmaceutical industry, particularly as a Product Executive. I have 3 years of experience in pharmaceutical services, along with a strong passion for developing product strategies within the industry. I have experience in providing product education to patients, analyzing consumer needs, and contributing to increased pharmacy sales. I am accustomed to processing operational data and understanding market behavior to support data-driven decision making. My background is further strengthened by industry exposure in pharmaceutical distribution and manufacturing, as well as strong communication and cross-functional collaboration skills. I am ready to contribute to developing competitive, market-oriented product strategies.
