Fresh graduate in Resource and Environmental Economics from Bogor Agricultural Institute (IPB) with strong interest in data analysis, market research, and business insights. Experienced in transforming multi-source data into structured datasets, analytical reports, and visual dashboards to support decision-making. Proven ability to coordinate cross-functional teams, manage projects, and communicate insights clearly to stakeholders. Skilled in Excel, SPSS, and statistical analysis to support performance monitoring, research, and strategic planning.

EDUCATION

Bogor Agricultural Institute – Bogor, Indonesia (2022 – 2026)

Bachelor of Resources and Environmental Economics (GPA: 3.65/4.00)

State High School 1 Jampangtengah – Sukabumi, Indonesia (July 2019 – June 2022)

WORK EXPERIENCE

Sukabumi Regency Regional Disaster Management Agency - (August – November 2025)

Project Support Intern, Rehabilitation and reconstruction sector

- Improved data-driven rehabilitation planning, measured by the development of structured datasets and analytical reports, by conducting market-style data research, benchmarking regional damage patterns, and processing multi-source field data using Excel and SPSS.
- Enhanced decision-making efficiency, measured by the delivery of clear data visualizations and performance summaries, by building tables, charts, and analytical dashboards in Excel to monitor key rehabilitation metrics.
- Supported operational strategy for housing recovery programs, measured by the preparation of weekly analytical reports and insights, by conducting data analysis and identifying trends from infrastructure and housing datasets.
- Increased community outreach effectiveness, measured by reaching 2,000+ disaster-affected residents, by designing educational materials and coordinating cross-unit implementation strategies.

Kelas Kampus Indonesia - (August - October 2025)

Event Organizer

- Delivered successful webinar programs, measured by the smooth execution of events with coordinated teams, by planning project timelines, budgeting, and stakeholder coordination across technical and organizing teams.
- Improved event planning efficiency, measured by structured activity plans and resource allocation, by conducting basic benchmarking of similar educational webinars and optimizing program run-downs.

ORGANIZATIONAL EXPERIENCE

BEM Faculty of Economics and Management - (January – December 2024)

Arts and Culture Department Staff

- Successfully executed three major departmental programs, measured by program completion and audience engagement, by managing end-to-end project coordination, performance tracking, and post-event evaluation reports.
- Expanded program reach and engagement, measured by the production of 10+ digital promotional contents, by developing data-informed social media content strategies and monitoring engagement metrics.

MPKMB IPB University 60 - (March - September 2023)

Group leader

- Leading and mentoring 50+ new students during the MPKMB series of activities to ensure participant adaptation and discipline.
- Be the main liaison between the committee and participants in conveying information and coordinating activities across more than 5+ divisions, ensuring smooth communication during the series of activities.

The 13th Bogor Art Festival - (April – October 2024)

Event Organizer

- Increased event attendance, measured by 4,000+ spectators, by developing event concepts, coordinating cross-division teams, and managing operational planning and budgeting.
- Improved event execution efficiency, measured by smooth cross-team collaboration, by coordinating multi-stakeholder communication and project timelines across divisions.

OTHER EXPERIENCES

Astra Village Project in Lebak, Banten - (July - August 2025)

Project assistant

- Supported successful delivery of 3+ community development programs, measured by on-time project completion, by coordinating multi-division activities and monitoring project progress against timelines and objectives.
- Improved project communication and documentation, measured by 10+ digital content and reporting materials, by developing visual communication assets and structured documentation workflows.

CERTIFICATION

- **7 Habits of Highly Effective Students** (August 2022)

LANGUAGES

- **Indonesian** — Native (oral and written)

- **English** — Intermediate

SKILLS

- **Data & Analysis:** Microsoft Office, Google Workspace, SPSS, STATA
- **Decision Support Tools:** PROMETHEE, MACTOR
- **Visualisasi & content:** Canva, CapCut
- **Soft Skills:** Analytical Thinking, Project Coordination, Communication, Team Leadership
