

PROFILE

A highly motivated Pharmaceutical and Food Analysis graduate with a Diploma (D3) from Poltekkes Kemenkes Jakarta II and currently pursuing a Bachelor of Pharmacy degree at Universitas Muhammadiyah Kudus. Possesses a strong academic background in pharmaceutical analysis, microbiology, analytical chemistry, pharmaceutical quality systems, and regulatory affairs. Experienced in Quality Control laboratory testing and Pharmaceutical Regulatory Affairs within the pharmaceutical manufacturing industry. Familiar with BPOM regulations, drug registration processes, technical documentation, export dossiers, packaging development, and pharmaceutical compliance. Demonstrates excellent analytical thinking, attention to detail, and strong documentation capabilities while working in cross-functional environments. Capable of operating various pharmaceutical analytical instruments, interpreting laboratory data, reviewing regulatory documents, and supporting product lifecycle management from laboratory testing through regulatory submission. Passionate about ensuring product quality, regulatory compliance, and continuous improvement while contributing to global pharmaceutical business expansion.

ABILITIES & CORE COMPETENCIES

- Pharmaceutical Regulatory Affairs
 - Drug Registration (New Product, Renewal & Variation)
 - BPOM Regulatory Submission
 - Export Registration Documentation (CoPP, CFS & Export Only)
 - Technical Dossier Preparation
 - Product Specification Review
 - Packaging Material Compliance
 - Regulatory Documentation Management
 - Regulatory Intelligence & Compliance
 - Quality Assurance & Quality Control
 - Finished Product Quality Control
 - Pharmaceutical Analytical Testing
- Laboratory Documentation
 - Good Manufacturing Practice (GMP)
 - Good Laboratory Practice (GLP)
 - SOP Compliance
 - Root Cause Analysis
 - Data Integrity
 - CAPA Awareness
 - Quality Documentation
 - Laboratory & Analytical Competencies
 - Pharmaceutical Chemistry Analysis
 - Food Analysis
 - Microbiology Analysis
 - Instrumental Analysis
 - Method Verification
- Analytical Data Interpretation
 - Laboratory Equipment Calibration Awareness
 - Laboratory Safety Compliance
 - Professional Competencies
 - Cross-functional Collaboration
 - Technical Report Writing
 - Regulatory Documentation Review
 - Time & Priority Management
 - Continuous Improvement Mindset
 - Leadership & Organizational Development
 - Public Communication
 - Project Coordination

WORKING EXPERIENCES

PT SAMCO FARMA - TANGERANG, INDONESIA - PHARMACEUTICAL MANUFACTURER

Registration Technical Services | November 2025 – Present

- Prepare, compile, and review pharmaceutical product registration dossiers for new registration, renewal, and product variation.
- Coordinate BPOM submission activities including CoPP, CFS, and Export Only registration documentation.
- Review technical documents including specifications, COA, manufacturing information, and supporting regulatory files.
- Verify laboratory analytical data before submission to ensure compliance with regulatory requirements.
- Coordinate with QA, QC, Production, R&D, Packaging Development, and Supply Chain regarding technical documentation.
- Monitor BPOM registration progress and follow up on regulatory approval status.
- Support packaging development by ensuring artwork and packaging specifications comply with registered documents.
- Ensure product information remains aligned between regulatory approval and commercial products.
- Support regulatory compliance activities according to BPOM and applicable pharmaceutical regulations.

Key Achievements

- Contributed to faster regulatory submission processes through proactive cross-functional coordination.
- Maintained high accuracy in regulatory documentation review, minimizing documentation discrepancies.
- Assisted regulatory activities supporting domestic and export pharmaceutical registration.

NOVELL PHARMACEUTICAL LABORATORIES - PHARMACEUTICAL MANUFACTURER

QC Finished Product Analyst | August 2025 – November 2025

- Conduct physical and chemical quality testing for finished pharmaceutical products.
- Perform laboratory sample preparation and analytical testing according to approved testing methods.
- Operate pharmaceutical laboratory instruments following SOP and calibration requirements.
- Review analytical data and ensure test results comply with product specifications.
- Prepare laboratory documentation and analytical reports accurately.
- Determine product release recommendations based on laboratory results.
- Support GMP implementation within Quality Control laboratory operations.
- Ensure laboratory equipment is maintained and utilized according to standard procedures.
- Maintain compliance with pharmaceutical quality standards and laboratory safety requirements.
- Key Achievements**
- Consistently completed laboratory analysis within required turnaround time without compromising data accuracy.
- Demonstrated proficiency in multiple pharmaceutical analytical instruments.
- Contributed to maintaining GMP compliance throughout laboratory operations.

PERUMDA PAM JAYA - JAKARTA

Laboratory Intern – Microbiology Analysis | February 2024

- Conduct microbiological testing of clean water samples.
- Perform laboratory analysis according to microbiological SOP.
- Prepare culture media and laboratory equipment.
- Record analytical observations accurately.
- Assist laboratory personnel in microbiological quality evaluation.
- Maintain laboratory cleanliness and biosafety standards.
- Key Achievements**
- Successfully completed microbiological analysis activities according to laboratory standards.
- Produced accurate laboratory documentation throughout internship.
- Strengthened practical competencies in microbiological testing and laboratory procedures.

EDUCATION

UNIVERSITAS MUHAMMADIYAH KUDUS | Bachelor of Pharmacy (S1 Pharmacy) | September 2025 – Present
POLITEKNIK KESEHATAN KEMENKES JAKARTA II | Diploma III in Pharmaceutical & Food Analysis | 2021 – 2024 | GPA : 3.53 / 4.00
Scientific Paper : Test of Coliform and Escherichia coli Contamination in Drinking Water by Filter Membrane Method

ORGANIZATIONAL EXPERIENCE

Student Executive Board (BEM) – Poltekkes Kemenkes Jakarta II
Staff – Ministry of Social Affairs | 2022 – 2023

- Organized community empowerment programs.
 - Coordinated public health and social service activities.
 - Managed disaster relief fundraising administration.
 - Collaborated with various internal committees.
 - Assisted implementation of student social welfare programs.
- Achievements**
- Successfully organized multiple community service programs with high participant involvement.
 - Managed transparent financial reporting for social programs.
 - Contributed to successful execution of annual BEM work programs.
 - Recognized for active contribution in student leadership activities.

Forum Nasional Sosial Masyarakat (FORNASSOSMAS) BEM Indonesia
National Health Issues Coordinator | 2022 – 2023

- Coordinate national health awareness initiatives.
 - Develop health education programs.
 - Collaborate with universities across Indonesia.
 - Support implementation of national health campaigns.
 - Coordinate communication between regional representatives.
- Achievements**
- Led coordination of health awareness campaigns involving multiple student organizations.
 - Improved effectiveness of public health campaign implementation.
 - Actively represented organizational programs in national discussions.

Rohani Islam SMAN 60 Jakarta
Head of Women's Islamic Division | 2019 – 2020

- Plan religious education activities.
 - Coordinate committee members.
 - Organize Islamic events.
 - Develop leadership among female students.
 - Promote character-building programs.
- Achievements**
- Successfully managed annual religious programs with strong student participation.
 - Improved member engagement through structured organizational activities.
 - Demonstrated leadership and event management capabilities.

HARD SKILL

- | | | |
|--------------------------------------|--|----------------------------|
| ● Pharmaceutical Regulatory Affairs | ● Pharmaceutical Analytical Techniques | ● Dissolution Tester |
| ● BPOM Registration Process | ● UV-Vis Spectrophotometer | ● pH Meter |
| ● Pharmaceutical Dossier Preparation | ● HPLC | ● Laboratory Data Analysis |
| ● Technical Documentation Review | ● Gas Chromatography (GC) | ● Microsoft Excel |
| ● GMP & GLP Compliance | ● FTIR | ● Microsoft Word |
| ● Quality Control Testing | ● Karl Fischer Titrator | ● Microsoft PowerPoint |
| ● Laboratory Documentation | ● TLC Densitometry | ● Documentation Management |

SOFT SKILL

- | | | |
|-----------------------|------------------------|----------------------------------|
| ● Analytical Thinking | ● Communication Skills | ● Organizational Skills |
| ● Attention to Detail | ● Leadership | ● Decision Making |
| ● Problem Solving | ● Teamwork | ● Continuous Learning |
| ● Critical Thinking | ● Adaptability | ● Accountability |
| ● Time Management | ● Public Speaking | ● Cross-functional Collaboration |

TRAINING & SERTIFIKASI

- Professional Certification** | Competency Area of Pharmacy Vocational Staff (Associate Degree of Pharmaceutical & Food Analysis)
- Professional Training** | Halal Pharmacy Training – LPPOM (2026)
- Seminars & Leadership Programs**
- National Health Seminar with SKP (2021, 2022, 2023)
- Dies Natalis Poltekkes Kemenkes Jakarta II (2022, 2023)
- Student Organization Inauguration Program (2022, 2023)
- Basic Leadership Training – Student Executive Board (2022, 2023)
- Organizational Leadership Training (2022, 2023)
- Campus Expo & National Try Out (2022, 2023)
- Ramadan Public Lecture (2022)
- Community Development Program (2022, 2023)
- Public Discussion Forum (2022, 2023)
- National English Essay Competition (2022)
- Health & Art Festival (2022, 2023)
- Planning & Developing Future Program (2022)
- Selaras Aksi Awards (2022)
- JAKADU Fair (2022)
- National Blood Donation Program – FORNASSOSMAS (2022)
- National Public Discussion – FORNASSOSMAS Indonesia (2024)
