SUMMARY

Licensed pharmacist, Universitas Indonesia, with strong focus on pharmaceutical R&D and formulation development. Hands-on experience as a laboratory assistant in developing solid, semi-solid, and liquid dosage forms (gentamicin cream, paracetamol elixir, suppositories, pyridoxine tablets), with exposure to excipient selection, compounding, and basic stability considerations. Actively involved in R&D-related projects and competitions, including development of a seaweed-based microneedling eye product and scientific literature review. Professional experience at AstraZeneca Indonesia, integrating scientific knowledge with clinical insights. Detail-oriented, fast-learner, collaborative team player, analytical, and highly motivated to contribute to innovation in pharmaceutical R&D.

SKILLS

Hard Skills:
