PROFILE

Bachelor of Pharmacy graduate from Universitas Pelita Harapan (2026) with a career interest in the pharmaceutical industry, focusing on Research & Development (R&D) and Quality Control (QC). Gained internship experience at PT Prima Medika Laboratories (Pharos Group), handling quality testing for an average of ± 70 sample batches per week. Proficient in UV-Vis Spectrophotometry, Infrared (IR) Spectrophotometry, and titration analysis techniques, as well as documentation and reporting of test results in accordance with CPOB/CPKB (Indonesian GMP/GCP) standards.

EDUCATION

Bachelor Pharmacy, Pelita Harapan University | Tangerang, Banten

2022 – 2026

GPA: 3.10 / 4.00

- **Thesis:** Anticholesterol Effectiveness Test of Banana King Leaf Extract (*Musa acuminata* $\times$ *Musa balbisiana*) in High-Fat-Diet-Induced Mice — natural product extraction research, preclinical study design, and product efficacy analysis
- **Relevant Coursework:** Pharmaceutical Analytical Chemistry, Chemical Instrumentation Laboratory, Physical Pharmacy, Pharmaceutical Technology of Liquid & Semisolid Dosage Forms, Pharmaceutical Technology of Solid Dosage Forms, Pharmaceutical Industrial Technology

SMK Negeri 10 Surabaya — Community Clinical Pharmacy | Surabaya, East Java

2019 – 2022

INTERNSHIP EXPERIENCE

PT Prima Medika Laboratories (Pharos Group) | Tangerang

Jan 2025 – Jun 2025

Quality Control Assistant – Physical Chemistry

- Performed finished-product analysis using titration, UV-Vis Spectrophotometry, and Infrared (IR) Spectrophotometry methods according to established standard procedures, handling an average of ± 70 sample batches per week
- Assisted with sample preparation for GC-MS, AAS, and HPLC analysis, gaining a foundational understanding of the working principles of all three instruments through direct guidance from analysts
- Documented and compiled test result reports in accordance with applicable standards
- Assisted with product sampling processes according to established techniques and procedures
- Entered QC test results (physicochemical, stability, and microbiology) into the company's internal system for multi-level approval by QA and the QC Manager

Apotek Viva Generik | Surabaya

Nov 2021 – Dec 2021

Pharmacy Assistant

- Handled prescription services and assisted with medication preparation according to pharmacy service standards
- Provided drug information and educated patients on the correct and rational use of medication
- Managed medication inventory and stock, including expiry monitoring, stock opname, and application of FIFO/FEFO principles

ACTIVITIES & ORGANIZATIONS

Public Health Outreach (Coursework Project)

2023 – 2024

- Delivered health education to school students on making natural hand sanitizer from lime extract, diabetes prevention, and healthy beverage consumption

Mentor — UPH Mentoring Program

2023

- Guided and supported new students in adapting to the academic environment over one semester

TECHNICAL SKILLS

- Titrimetric analysis; UV-Vis and Infrared (IR) Spectrophotometry; Microlab LX-300 photometer
- Foundational understanding of GC-MS, AAS, and HPLC instrumentation (through direct guidance)
- Documentation and reporting of test results per CPOB/CPKB (Indonesian GMP/GCP) standards
- Product sampling techniques
- Statistical analysis: SPSS, Jamovi, GraphPad Prism
- Microsoft Office (Word, Excel, PowerPoint)

INTERPERSONAL SKILLS

- Regulatory compliance and work ethics
- Accuracy and attention to detail
- Discipline in documentation and data recording
- Teamwork
- Effective communication
