PROFILE SUMMARY

A pharmacist with strong analytical expertise and practical experience in pharmaceutical quality control and analytical development. Proficient in operating advanced analytical instruments (HPLC, FTIR, UV-Vis) and conducting physicochemical testing in strict compliance with Good Laboratory Practice (GLP) and cGMP standards. Possesses a proven capability in ensuring data integrity (ALCOA+), quality risk management, and team leadership to support precise and efficient laboratory operations.

PROFESSIONAL PRACTICE EXPERIENCE

Pancasila University – Analytical Chemistry Laboratory

July – September 2026

- Supervised and guided students during analytical chemistry practical sessions, ensuring strict adherence to laboratory safety protocols (K3) and Good Laboratory Practice (GLP).
- Operated and calibrated advanced analytical instruments, including HPLC, FTIR, UV-Vis Spectrophotometer, and pH meter for physicochemical analysis.
- Conducted comprehensive evaluations of pharmaceutical dosage forms, specifically executing dissolution testing and dosage uniformity analysis.

PT. Pharma Laboratories

January – February 2026

- Validate the implementation of data integrity (ALCOA+) principles within operational quality documentation systems.
 - Evaluate packaging compliance against primary and secondary packaging material specifications within the Quality Assurance (QA) department, based on cGMP standards.
 - Analyze quality risk management using Failure Mode and Effects Analysis (FMEA) and Gap Analysis methods.
 - Review the HVAC system requalification process to ensure production area environmental parameters comply with cGMP standards.
 - Conduct temperature mapping and analyze warehouse storage condition data within the PPIC department.
-

EDUCATION

Pancasila University

Bachelor of Pharmacy

2021 – 2025

- Thesis: "Formulation and In Vitro Sun Protection Factor Activity Testing of Black Glutinous Rice Extract (*Oryza sativa* L. var. *Glutinosa*) Emulgel"

Pharmacist Professional Program

2025 – 2026

ORGANIZATIONAL & LEADERSHIP EXPERIENCE

Chairperson of PKPA Cohort – PT. Pharma Laboratories

Januari – Februari 2026

- Coordinate the daily operations of student interns and serve as a strategic liaison between the university and agency preceptors.

Public Relations Member – Pharmaceutical Health Forum (FRAKSI)

2022 – 2023

- Facilitate internal organizational communication and draft correspondence and documentation to support external partnership programs.

Public Relations Coordinator – Refractio Faction

2023

- Leading the team in devising publication strategies and building strategic relationships with external stakeholders.
