081285046546 | Bekasi, Indonesia | anggitavirginia11@gmail.com | www.linkedin.com/in/anggitavirginianm

Pharmacy graduate from Universitas Pembangunan Nasional "Veteran" Jakarta with internship experience in pharmaceutical manufacturing, healthcare logistics, and supply chain support. Experienced in managing pharmaceutical documentation, validating logistics data, supporting inventory activities, and coordinating with multidisciplinary teams in GMP (CPOB)-compliant environments. Strong analytical, communication, and organizational skills with a strong interest in Purchasing and Supply Chain within the pharmaceutical industry.

EDUCATION

Universitas Pembangunan Nasional "Veteran" Jakarta - Jakarta, Indonesia Aug 2022 - Jul 2026
Bachelor of Pharmacy, 3.75/4.00

SMA Negeri 1 Cikarang Utara - Bekasi, Indonesia Jul 2019 - Jun 2022
High School Diploma Major in MIPA

WORK EXPERIENCES

Ministry of Health of the Republic of Indonesia - Jakarta, Indonesia May 2026 - Jun 2026
Pharmacy Intern at Directorate of Pharmaceutical Management and Services, Directorate General of Pharmaceuticals and Medical Devices

- Managed pharmaceutical logistics documentation (BAST & SBBK) to ensure traceability of government medicines and medical supplies while maintaining accurate procurement records for over 100 logistics documents.
- Verified nationwide pharmaceutical shipments across three production batches by coordinating distribution data and supporting on-time delivery readiness for approximately three provinces per day.
- Coordinated pharmaceutical product preparation and repackaging activities, ensuring materials were completed according to operational schedules and daily targets.
- Conducted price mapping for over 500 pharmaceutical products across seven procurement regions, supporting budgeting and procurement planning for the 2026–2027 purchasing program with a 4-member team.
- Validated and standardized logistics datasets to support procurement planning, inventory accuracy, and purchasing documentation.
- Compiled and validated BMHP requirements for 500+ healthcare facilities, covering 11 adult and 12 pediatric items for the 2026 CKG program in collaboration with a 3-member team to support procurement planning and distribution readiness.

LAFI III Baharwathan (LAFI AU) - Bandung, Indonesia Feb 2026 - Apr 2026
Pharmacy Intern

- Supported laboratory-scale formulation development of paracetamol syrup and vitamin C lozenges through pre-formulation studies, excipient selection, and physical evaluation, successfully producing laboratory-scale vitamin C lozenges and paracetamol syrup formulations that met targeted evaluation parameters.
- Supported GMP (CPOB)-compliant manufacturing, including dispensing, mixing, IPC, documentation, and packaging for 5 production batches.
- Performed QC testing for 3 production batches, conducting dissolution, physical quality tests, and sampling at initial, middle, final, and composite stages.
- Developed CAPA documentation by applying Quality Risk Management (QRM) principles and root cause analysis to simulated quality deviations.
- Supported warehouse and inventory operations including receiving, sampling, stock opname, inventory traceability, material verification, and distribution while ensuring inventory accuracy for more than 20 pharmaceutical items.

Universitas Pembangunan Nasional "Veteran" Jakarta - Jakarta, Indonesia Feb 2024 - Dec 2025
Laboratory Assistant

(Course: Solid Pharmaceutical Formulation, Liquid & Semisolid Pharmaceutical Formulation, Pharmaceutics, Herbal Indonesia)

- Assisted lecturers in laboratory practical sessions while supervising 25+ pharmacy students and ensuring laboratory safety and procedural compliance.
- Guided students in preparing 10+ pharmaceutical formulations and compounded prescriptions, providing formulation troubleshooting throughout practical sessions.
- Demonstrated the operation of UV–Vis spectrophotometers, dissolution testers, and microscopes to support students' practical competencies.
- Prepared laboratory materials, chemicals, and equipment while maintaining inventory readiness for multiple practical sessions.
- Evaluated laboratory performance and 10+ student reports with lecturers, providing feedback to improve practical competencies.
- Maintained laboratory safety and organization by implementing Good Laboratory Practice (GLP) throughout practical sessions.

ORGANIZATIONAL EXPERIENCES

Himpunan Mahasiswa Farmasi Fakultas Kedokteran

Aug 2023 – Nov 2025

Caderization and Organization Human Resource Development

- Coordinated member development programs and organizational activities to support leadership development and team effectiveness.
- Organized HR development activities that strengthened collaboration, communication, and member engagement across the organization.

EVENT EXPERIENCES

Upgrading x OFD 3.0 - Jakarta, Indonesia

Sep 2024 - Nov 2024

Project Officer

- Drafted proposals and activity accountability reports, including managing the procurement and borrowing of facilities and equipment to ensure the smooth execution of events.
- Designed and organized activity schedules while ensuring all event sequences proceeded as planned, in coordination with other committee members for optimal execution.
- Oversaw and ensured the seamless execution of technical operations during the event.

Medical Veteran Project 2024 - Jakarta, Indonesia

May 2024 – Sep 2024

Secretary

- Managed administrative tasks for national-scale events, created proposals, drafted activity accountability reports, and compiled more than 50 letters required during the event.
- Ensured thorough document archiving and supported the compliance of the entire event process.

Veteran Pharma Fest - Jakarta, Indonesia

Jul 2024 – Sep 2024

Secretary

- Managed all administrative aspects of event organization, including handling incoming and outgoing letter and ensuring thorough document archiving.
- Developed detailed proposals and final reports, and crafted all essential documents to support the entire event process.

PROJECTS

Formulation and Evaluation of Amoxicillin Trihydrate Fast Disintegrating Tablet (FDT) Using Sodium Starch Glycolate as Super Disintegrant

Apr 2024 - Jun 2024

Course: Praktikum TSF Solid – UPN “Veteran” Jakarta

- Developed Amoxicillin Trihydrate Fast Disintegrating Tablets (FDT) using sodium starch glycolate through formulation optimization, pre-formulation, and physicochemical evaluation.
- Performed disintegration, friability, hardness, and weight variation testing with statistical analysis, producing FDT formulations that met targeted pharmacopeial quality requirements.

SKILLS & OTHER EXPERIENCES

- **Achievements:** 1st place at Pharmapreneur Competition at Veteran Pharma Fest 2024
- **Language Skills:** Bahasa Indonesia (Native) and English (Intermediate)
- **Soft Skills:** Analytical Thinking, Problem Solving, Communication, Cross-functional Collaboration, Planning, Attention to Detail, Time Management, Learning Agility, Integrity.
- **Technical Skills:** Pharmaceutical Supply Chain, Inventory Management, GMP (CPOB), GDP (CDOB), Microsoft Excel, Microsoft Office, Pharmaceutical Manufacturing, Quality Assurance (QA), Quality Control (QC) Testing, In-Process Control (IPC), CAPA, Quality Risk Management (QRM), GLP, Pharmaceutical Formulation, Pharmaceutical Compounding, UV-Visible Spectrophotometry, Data Analysis (SPSS).
