PROFESSIONAL SUMMARY

Detail-oriented pharmacy graduate with strong hands-on experience in R&D formulation, technology transfer, and GMP-compliant documentation. Capable of independently executing formulation trials, analyzing results, and operating key lab and manufacturing equipment. Experienced in cross-functional collaboration and material coordination. Primarily seeking an R&D role, but open to Regulatory Affairs or supply chain functions that require precision, process understanding, and strong documentation skills

SKILLS

- GMP & GDocP documentation
- Formulation Development (Solid, Liquid, Semisolid, Sterile)
- Technology transfer & Validation
- Microsoft Office
- Instrument & Equipment Handling
- Problem solving & attention handling
- Good communication and teamwork abilities
- Cross functional teamwork

PROFESSIONAL EXPERIENCE

New Product Development Staff | PT. Erlangga Edi Laboratories (ERELA)

January 2025 - Present

- Performed lab-scale formulation and validation of solid, liquid, semi-solid, and sterile dosage forms.
- Operated key R&D instruments (pH meter, viscometer, moisture analyzer) and equipment (super mixer, Silverson, Ultra-Turrax).
- Managed documentation per GDocP standards and coordinated trial material handling.
- Supported product development validation and reported formulation outcomes.
- Evaluated trial results and recommended data-based improvements to enhance product quality and stability.

Manufacturing Technology Unit Formulator | PT. Medifarma Laboratories

March 2023 - December 2024

- Manage Batch Production Record and Batch Packaging Record documentation
- Conduct Validation Process for Pilot Trials
- Handle Raw Materials and Packaging Materials at Warehouse for trials
- Execute Technology Transfer processes
- Monitor solid product production from granulation to primary packaging

EDUCATION

Pakuan University (2017-2022)

Bachelor Degree in Pharmacy - GPA 3,01

- Trusted to participate in lecturer research on food biology.

CERTIFICATIONS

- Good Laboratory Practice (GLP) - PT. Digita Scientia Indonesia
- Microbiological Analysis (BNSP) - Valid Jun 2022-Jun 2025
- FSSC 22000 v5.1 (Food Safety Certification) - Makin Ahli
- ISO 22000:2018 (Food Safety Management System) - Makin Ahli
- HACCP (Hazard Analysis and Critical Control Point) - Makin Ahli
