Tebet, Jakarta Selatan

An Information Technology graduate currently working as a Quality Assurance Manual, experience in software testing. Skilled in manual testing, test case creation, and bug reporting to ensure application quality and reliability. Experienced in teamwork, relationship building, and actively participating in communities. Committed to continuously exploring new experiences, new opportunities and making a positive contribution in the professional world.

Work Experiences

PT Prudential Syariah - Jakarta, Indonesia Mar 2026 - Present

Quality Assurance

Under Vendor PT NTT Data Technology

- Collaborated with Business Analyst to analyze business requirements and define test strategies for SIT projects (PruTahapan Cemerlang, PruCritical Amanah, Tabarru Allocation issue)
- Designed and developed detailed test scenarios and test cases based on business requirements and system flows
- Executed end-to-end testing using AS400 Core Life Asia system covering policy creation, claim processing, and waiver validation
- Performed database validation using DBeaver to ensure data accuracy and consistency between system and backend records
- Tracked, and managed defects using JIRA throughout testing lifecycle to ensure timely issue resolution
- Participated in SIT execution and regression testing to ensure system stability across multiple releases

PT Bank Negara Indonesia - Jakarta, Indonesia Oct 2025 - Feb 2026

Quality Assurance Manual

Under vendor PT NTT Data Technology

- Executed User Acceptance Testing (UAT) for BNI Direct Bisnis and BNI Direct Cash transactions including Payroll, Bulk Payment, Bill Payment, and Tax Payment
- Executed predefined positive and negative test cases to validate transaction accuracy, authorization flow, and business requirements.
- Validated security transaction flow using Mobile Token authentication for payment approval processes
- Prepared and maintained UAT documentation including test execution results (Pass/Fail) using Microsoft Excel
- Conducted testing for OJK regulatory updates related to email notifications and transaction advices
- Reported defects using JIRA and performed retesting after bug fixes to ensure issue resolution

PT Infovesta Utama - Jakarta, Indonesia May 2025 - Sep 2025

Quality Assurance Intern

- Performed manual testing on user interface and functional features for Invest Data Project
- Created and executed test cases for positive and negative scenarios in Invest Pro Core System
- Reported and tracked bugs using Excel and ClickUp in coordination with development team
- Prepared Factory Acceptance Test (FAT) documentation for release readiness validation
- Supported SIT and UAT documentation preparation for Jamkrindo project

PT Swadharma Duta Data - Jakarta, Indonesia Feb 2024 - Apr 2024

Software Development Intern

- Creating ECMS application using Java
- Assisted the development team in QA testing the SIMPRO project
- Create an "E-Absensi" web project using html, css, javascript, php and mysql for internship.
