PROFILE

Pharmacist with experience in pharmaceutical manufacturing, specializing in Quality Systems and Secondary Packaging Development. Skilled in quality documentation, employee training, supplier qualification, material complaint handling, and GMP/CPOB compliance. Passionate about continuous learning and expanding expertise in Regulatory Affairs, Pharmacovigilance, and Pharmaceutical Marketing, with a commitment to contributing to product quality, regulatory compliance, patient safety, and business growth in the pharmaceutical or FMCG industry.

EDUCATION

University of Indonesia (UI)

(August 2023 – September 2024)

Professional Pharmacist Programme - Cumulative GPA: 3.72

Activities : Committee of Apothecary Oath batch 96 & 97 | Clinical Pharmacy Internship | Pharmaceutical Distributor Internship | Community Pharmacy Internship | Pharmaceutical Industry Internship

University of Indonesia (UI)

(August 2019 – August 2023)

Bachelor in Pharmacy - Cumulative GPA: 3.30

Thesis: Study of Donepezil Solid Lipid Nanoparticles as Delivery System for Nose to Brain

Activities : Faculty and Campus Organization Member | Practicum Assistant | Wisma Prestasi Scholarship Awardee

PROFESSIONAL EXPERIENCE

- **Quality Assurance Staff – PT CKD OTTO Pharmaceuticals** (June 2025 – Present)
 - Managed and monitored artwork development timelines for secondary packaging to support new product registrations, product variations, and commercial implementation.
 - Reviewed packaging artwork to ensure accuracy, regulatory compliance, and timely approval according to established project deadlines.
 - Coordinated with packaging material suppliers and vendors to facilitate printing activities based on approved artwork specifications.
 - Conducted Proof Print on Site (PPOS) activities at supplier facilities to verify that printed packaging materials met approved artwork and quality specifications.
 - Prepared secondary packaging material specifications and approved proof print references to support incoming material inspection by the Quality Control team.
 - Planned, coordinated, and monitored the annual employee training program, including training schedules, trainer preparation, and training implementation.
 - Managed supplier quality complaints by preparing and issuing material complaint documentation for packaging materials that did not meet specified requirements.
 - Coordinated supplier qualification activities for production and laboratory supporting materials to ensure compliance with quality standards.
 - Prepared and maintained Quality Agreements for external business partners while collaborating with cross-functional teams, including Purchasing and Business Development, to support supplier and partner quality management.
- **Production Intern – PT Darya Varia Laboratoria Tbk** (January – February 2024)
 - Analyzed the general components and areas of a pharmaceutical factory across various divisions, such as *Quality Assurance, Quality Control, Technical Service, Procurement, and Logistics*.
 - Assisted in reviewing and revising 2 study protocols for deviations in soft capsule products to identify root causes then finding solutions for product deviation issues to be discussed with the production team and these findings continue to be processed by compiling a CAPA
 - Monitored and observed the liquid filling production process for 20 days to document and gather information on the performance of 2 machines with different spesification and the output report provided a basis for evaluating and enhancing production efficiency, which was later used to make informed decisions to increase production capacity.
- **Branch Regulatory Quality Assurance Intern – PT. Anugerah Pharmindo Lestari** (November 2023)
 - Studied regulations related to the responsibilities of pharmaceutical quality assurance accordance with Good Distribution Practice (GDP) guidelines.
 - Created report on storage conditions in warehouse, verifying purchase orders, and routine reporting for narcotics and psychotropic substances to BPOM.
 - Developed a team project to propose an innovative solution for the company by suggesting the development of an application to monitor expired dates, aimed at optimizing inspection time and minimizing losses.
- **Pharmacy Physics Practicum Assistant – Faculty of Pharmacy UI** (February – May 2023)
 - Assisted in the preparation of equipment (ex: *pH meter, beaker, pipette, volumetric flask*), chemicals (*medium/solvent*) , and other materials needed for laboratory experiments.
 - Supervised with monitored the work of 10+ students during practical sessions consist of solubility and disolution, then ensure correct procedure and safety protocols were followed.

- Managed the setup and operation of laboratory instruments such UV-Vis spectrophotometry, for sample concentration analysis.
- **Solid Dosage Form Practicum Assistant – Faculty of Pharmacy UI** (September – November 2022)
 - Prepared and managed laboratory equipment for 20+ students, ensuring the smooth running of 10+ practical sessions.
 - Supervised 20+ students during practical sessions, ensuring 100% adherence to safety protocols.
 - Handled the requirements of dissolution practicals that involved sample concentration analysis using UV-Vis spectrophotometry.

ORGANIZATIONAL AND COMMITTEE EXPERIENCE

- **Deputy Head of Muslim Departement Centre – Syiar Islam Farmasi (SYIFA)** (February –December 2022)
 - Facilitated the development of potential mentors for first-year Muslim students, ensuring they are well-prepared to provide guidance and support throughout the academic year.
 - Supervised and managed the Islamic Student Orientation Program for new students named “Sulfa” at the Faculty of Pharmacy, coordinating events and activities to help them transition smoothly into university life.
 - Maintained the sustainability of multiple students mentoring groups, ensuring continuous engagement and support for Muslim students through regular meetings and activities.
- **Deputy Head of Department Ilmy – Syiar Islam Farmasi (SYIFA)** (February –December 2021)
 - Provided academic support to students by organizing exam preparation sessions for specific courses, connecting them with expert tutors in the relevant fields to ensure effective learning.
 - Developed and curated educational content related to pharmaceutical sciences, as well as Islamic celebrations, for social media platforms, aiming to engage and inform the student community
 - Conducted data collection and recognition of outstanding students in the Faculty of Pharmacy, ensuring their achievements were acknowledged and celebrated through public announcements and awards.
- **Students Mentor – OKK UI** (July – August 2021)
 - Introduced and guided new students through the university environment, providing them with essential information on campus facilities, academic systems, and student life.
 - Led and mentored a group of 20+ students, overseeing their progress on assigned tasks and ensuring that all requirements were met for successful completion of the mentoring program.
 - Regularly communicated with students to address their challenges and difficulties, offering guidance and support to help them overcome academic and personal obstacles.
- **Staff of National Relations Bureau – SALAM UI** (February – December 2020)
 - Organized regular study forums, known as *Jaulah*, facilitating discussions and knowledge exchange between various student organizations at both university-wide and faculty levels.
 - Collected and maintained an extensive database of contacts and information from student organizations across different campuses, as well as non-governmental organizations (NGOs) throughout Indonesia.
 - Fostered relationships and communication between SALAM UI and external organizations, ensuring collaboration opportunities and knowledge-sharing initiatives were effectively managed.

Training & Certification

- Good Laboratory Practices | TemanLab | 2025
- Good Clinical Practices | TemanLab | 2025
- Quality Risk Management In Industry | TemanLab | 2025
- Regulatory Affairs in Pharmaceutical Industry | TemanLab | 2025
- Preparation of BPOM Product Information Files (PIF) for Cosmetics and Pharmaceuticals | TemanLab | 2025
- Criteria for the Halal Product Assurance System (SJPH) | TemanLab | 2025
- Good Documentation Practice in Pharmaceutical Industry | TemanLab | 2025
- Data Integrity Risk Assessment | El Pharma | 2025

INTEREST / SKILL / LANGUAGES

SUBSTANCE : Quality, Regulatory, Research Development, Marketing, Production, and Supply Chain

SOFT SKILLS : Team work, communication, time management, critical & analytical thinking, adaptability, problem solving, leadership, project management, continuous improvement

HARD SKILLS : Microsoft Office, Google Workspace, Social media aps, UV-Vis Spectrophotometry, High Performance Liquid Chromatography, Thin Layer Chromatography, Ultrasound-assisted extraction

LANGUAGES : Native in Bahasa and Proficient in English
