kevinraynaldi024@gmail.com / [linkedin.com/in/kevinraynaldi](https://www.linkedin.com/in/kevinraynaldi)

I am a fresh graduate in Pharmacy from Universitas Sriwijaya (UNSRI) and pharmacist profession from Universitas Padjadjaran (UNPAD). During my studies, I actively participated in student organizations, serving as Head of the Community Department, BPPO, and Head of the Basic Chemistry Joint Shift at LKU UNSRI. My research focused on the effects of a self-nanoemulsion on osteoarthritis in mice. With a strong foundation in pharmacy, leadership, teamwork, and continuous learning, I am eager to contribute to the growth of Indonesia's pharmaceutical industry.

Education

Universitas Padjadjaran, Jatinangor, Sumedang
(Apothecary Program) | GPA 3.73/4.00

Aug 2025- Present

Universitas Sriwijaya, Indralaya, Ogan Ilir
Bachelor of Pharmacy | GPA 3.88/4.00

Jul 2021 - Feb 2025

- Publication : The Effect of Self-Nano Emulsion of Gambir (*Uncaria gambir* Roxb.) Extract on the Feet of Rats with Osteoarthritis, UNSRI Repository, 2024.

Internship

Pharmacist Professional Internship – Regulatory Affairs at PT. Menarini Indria Laboratories November 2025-Desember 2025

- Studied pharmaceutical product registration processes and regulatory requirements.
- preparing a training presentation on the halal product assurance system (SJPH) for all personnel in the pharmaceutical industry
- Managed and reviewed registration-related documentation.
- Performed comparative assessments of raw material and finished product specifications between internal standards and pharmacopoeial requirements.
- Participated in production tours to understand the process from raw material receipt at PPIC to product release.
- Learned about various divisions including RnD, Production, QC, PPIC, Validation & Qualification.

Pharmacist Professional Internship – Hospital Pharmacy at Rumah Sakit Advent Bandung Januari 2026-Februari 2026

- participate and prepare cytotoxic product dispensing
- Performed prescription screening, dispensing, and drug information services.
- Participated in patient medication therapy monitoring.
- learning related to managerial and clinical pharmacy aspects in pharmaceutical services according to Ministry of Health Regulation 72 of 2016
- Provided drug information and education services to patients.
- Visited inpatients, conducted drug therapy monitoring for patients with hypertension and pinched nerves, identified Drug-Related Problems (DRPs), and communicate findings to pharmacists.
- receiving drugs and medical devices and learning their flow
- Learning the process of drug selection to be included in the hospital formulary

Pharmacist Professional Internship – Pharmaceutical Distribution at PT. Distrindo Karya Utama March 2026

- Learned the implementation of Good Distribution Practice (GDP/CDOB).
- Learned the distribution process from the raw materials to the final product all the way to the health facilities
- Practicing receiving drug products from suppliers up to preparing the medicine for customers
- Doing special tasks for supplier requalification in completing specimens

Pharmacist Professional Internship – Community Pharmacy at PT Medika Antapani April 2026

- Doing a feasibility study assignment for a pharmacy includes aspects of pharmacy establishment legality, marketing, facilities and infrastructure, and finances.
- Provided drug information services (PIO) and self-medication to patients.
- Learned about the managerial and business aspects of pharmacies through regular discussions with pharmacists.
- Gaining insights about BPJS patients, the INA-CBGs system, e-purchasing, capitation, and medication needs

Experience

Himpunan Keluarga Mahasiswa Farmasi (HKMF) 2022 - 2024

- Served as expert staff for strategy and advocacy studies for two consecutive terms
- Elected as the organization's supervisory and advisory body

Muslim Scientist Generation Community (KOSMIC) 2022 - 2023

- As an expert staff for the Muslim Scientist Generation Community Elected as the head of the department of the Muslim Scientist Generation Community

Indonesian Pharmacy Student Senate Association (ISMAFARSI) 2022 -2024

- as expert staff for strategic studies and advocacy of Ismafarsi Sumatra II

Selected general chemistry laboratory assistant 2022 - 2024

Faculty of Pharmacy, Universitas Sriwijaya

- Supervised botany practicum activities by assisting 30 participants throughout the 10 modules.
- Operated laboratory equipment and learned about chemical materials.
- Assessed student practicum results.
- Prepared and supervised student final exams.

Qualitative pharmaceutical analysis laboratory asistent 2023 - 2023

Faculty of Pharmacy, Universitas Padjadjaran

- Supervised botany practicum activities by assisting 30 participants throughout the 10 modules.
- Guided students in conducting cation and anion analysis activities.
- Assessed student practicum results.
- Prepared and supervised student final exams

Pharmacognosy laboratory assistant

2022 - 2023

- Supervised botany practicum activities by assisting 30 participants throughout the 10 modules.
- Guided students in conducting extraction activities and using extraction methods.
- Assessed student practicum results.
- Prepared and supervised student final exams.

Botany laboratory asistant

2022 - 2023

- Supervised botany practicum activities by assisting 30 participants throughout the 10 modules.
- Operated a microscope to observe and identify microscopic fragments from herbal samples.
- Assessed student practicum results.
- Prepared and supervised student final exams.

Rural Community Development

2022 - 2024

- Participated as Core Team Member in Community Service Program at Ulak Kerbau Village, Indralaya, South Sumatra.
- Participating as a core team member in community service in Babat Toman Baru village related to the processing of gambir waste into powder for batik dye, South Sumatra

Team Work

2021 - 2024

- As the chief executive of the 2023 Sriwijaya University Pharmacy Familiarity Day
- As the person in charge of equipment for the joint cosmic study event
- As the person in charge of transportation for the campus life introduction event and pharmacy service

Achievement

3rd place in the 2019 district chemistry science olympiad	July 2019
Funded Research at Program Kreativitas Mahasiswa (PKM) Passed the 3 funding until PIMNAS 2024	Feb 2024 - Okt 2024
School Event, Ismafarsi Sumatera II 2023 Elected as the most active par Kastrad school event at Andalas University	Aug 2023

Soft Skill And Hard Skill

-
- MS Office Computer Literacy (Excel, Word, PowerPoint) in-depth experience in data
 - Analysis and design of experimental (DOE) for formula development Technical Pharmaceutical Knowledge about in-depth understanding of pharmacology and pharmaceutical chemistry
 - Laboratory Skills related to Instrumental Analysis Techniques
