Ciangsana, Kab. Bogor, Indonesia

Highly motivated Pharmacist, holding a February 2025 competency certificate from Universitas Sumatera Utara. Experience includes a Pharmacist Internship in some workplaces, laboratory assistant roles in pharmacognosy and traditional medicine analysis at Universitas Sumatera Utara back in 2022. Right now working as Business Development at PT. Anugrah Visi Bersama, a raw material pharmaceutical wholesaler.

Work Experiences

PT. Anugrah Visi Bersama - Bogor Regency, Indonesia

Aug 2025 - Present

Business Development

PT. Anugrah Visi Bersama was established as a Pharmaceutical Raw Materials Wholesaler (PBBBF). We are engaged in import and distribution of various API raw material products for the pharmaceutical industry in Indonesia. Anugrah will firmly committed to delivering high quality raw materials, and continues to develop new products with customers.

We operate in accordance with the certification of Good Distribution Practice (GDP) since 2021 in order to maintain the safety and quality of raw materials until it reaches the hands of customers.

- Managed New Product Development (NPD) projects for pharmaceutical raw materials.
- Assisted pharmaceutical industry R&D and Business Development teams in sourcing suitable raw materials for their NPD projects. Conducted end-to-end sourcing activities for new pharmaceutical raw materials (outside catalogue), including manufacturer identification, supplier shortlisting, quotation requests, and commercial-technical evaluation.
- Negotiated pricing, MOQ, incoterms, payment terms, and production lead time with international manufacturers while ensuring compliance with regulatory documentation (COA, GMP, MSDS, DMF, Halal, ISO).
- Handled more than 50+ global sourcing activities for APIs, excipients, extracts, and raw materials for drug and supplement formulations, mainly from China, India, and Europe.
- Maintained relationships with international principals—primarily direct manufacturers—as well as suppliers and end-customers.
- Created product knowledge documents and training materials for the sales team.
- Delivered product presentations and conducted technical-commercial discussions, mainly with R&D and Business Development teams.
- Conducted market research for pharmaceutical and supplement ingredients to identify new product opportunities.
- Familiar with evaluating patent status and off-patent opportunities for APIs.
- Coordinated internal cross-functional collaboration with Purchasing, Export-Import, Regulatory and Sales teams to support customer requirements.
- Familiar with BPOM regulatory requirements for importing raw materials, including GMP, WC, COPP, Halal Certificate, Health Certificate, HS Code for export-import, DMF Type II and IV, and ISO certificates.
- Currently also working on a project related to importing a Finished Dosage Form (FDF) to an end-user (Indonesia's pharma manufacturer). Familiar with ASEAN CTD (dossier) and the technical documents required for FDF importation. Also familiar with PerKa BPOM No. 24/2017 and its amendments.

PT. Kalventis Sinergi Farma - East Jakarta

Sep 2024 - Nov 2024

Digital Quality & Validation Intern

- Utilized Minitab software to analyze data and wrote two Product Quality Review (PQR) drafts.
- Wrote one Continued Process Verification (CPV) draft.
- Managed document control by tracking qualification and computerized system documents.
- Contributed to regulatory compliance by updating draft labels and specimens.
- Performed data entry for manufacturing processes for some products.
- Assisted the Quality Control division in checking the conformity of the retained sample with the list of goods sent from PT. Boehringer Ingelheim Indonesia.
- Familiar with the use of e-QMS specifically Qualio.

RSUD Dr. Pirngadi Kota Medan - Medan, North Sumatra

Jul 2024 - Sep 2024

Pharmacist Internship

- Applied the role and functions of pharmacist based on Peraturan Menteri Kesehatan 72/2016.
- Developed a study case report on a patient with complications of stage 5 chronic kidney failure, suspected pneumonia and urinary tract stones.
- Learning and simulating about reports like SIPNAP, SIHA 2.1 and SITB.
- Conducting Interprofessional Collaboration (IPC) seminar with co-ass medical students related to case studies of PICU patients with bronchopneumonia, congenital heart disease and malnutrition.
- During my clinical internship, I became familiar with the use of Medical Information System Administration (MIRSA), Integrated Patient Development Record and SOAPIE documentation methods, as well as the Pharmaceutical Care Network Europe (PCNE) classification system version 9.1 to support structured pharmaceutical care and improve clinical communication.
