Serang, Banten, Indonesia

Chemical Analysis graduate with hands-on experience in laboratory testing, water quality analysis, and food manufacturing quality control. Skilled in spectrophotometry, gravimetric and volumetric analysis, GMP implementation, and laboratory documentation. Seeking opportunities as a Quality Control Analyst, Laboratory Analyst, or Chemical Analyst.

WORK EXPERIENCE

PT Santosa Agrindo (Japfa Beef Division) – Serang, Indonesia Mar 2025 – Present

Quailty Control (QC) Line Operator

- Monitor product quality throughout the production process to ensure compliance with food safety regulations, GMP, and company quality standards.
- Conduct routine quality inspections during production processes and verify product conformity with established specifications.
 - Identify and segregate non-conforming products to prevent quality deviations.
 - Perform quality documentation and inspection reporting in accordance with company procedures.
 - Monitor production processes to ensure compliance with GMP, SOP, and quality assurance requirements.
 - Coordinate with production supervisors regarding quality issues and corrective actions.
 - Support continuous improvement initiatives to maintain product consistency and customer satisfaction.

PT Lotte Chemical Titan Nusantara – Cilegon, Indonesia Jun 2024

Chemical Laboratory Intern

- Completed laboratory analysis of industrial process water and polymer materials within one of Indonesia’s leading petrochemical companies.
- Conducted process water analysis including pH, conductivity, silica, phosphate, and iron (Fe).
 - Performed polyethylene (PE) pellet quality analysis following laboratory procedures.
 - Assisted laboratory analysts in sample preparation and analytical testing.
 - Operated laboratory equipment according to Standard Operating Procedures (SOP).
 - Recorded analytical results accurately and maintained laboratory documentation.

PT ASDP Indonesia Ferry – Merak, Indonesia Apr 2023

Ticketing Helper

- Provided operational support during passenger and vehicle boarding activities.
- Verified passenger and vehicle tickets before boarding.
 - Assisted in managing passenger flow to ensure efficient boarding operations.
 - Delivered customer service and provided travel information.
 - Supported ticket booth operations during peak schedules.

EDUCATION

SMK PGRI Kota Serang 2021 - 2025

Chemical Analysis

SKILLS & CERTIFICATION

Technical Skills	Soft Skills	Certification
• Quality Control Inspection • Water Quality Analysis • Spectrophotometry • Gravimetric Analysis • Volumetric Analysis • Instrumental Analysis • Sample Preparation • Laboratory Documentation	• GMP & SOP Compliance • Chemical Analysis • Attention to Detail • Problem Solving • Communication • Teamwork • Adaptability • Analytical Thinking	• Basic Occupational Safety and Health (K3) Certificate • Chemical Laboratory Internship Certificate – PT Lotte Chemical Titan Nusantara • Hygiene and Sanitation Training Certificate
