Tangerang, Indonesia

Recent Pharmacy graduate from Universitas Diponegoro with practical laboratory experience through academic practicum, teaching assistantships, and a hospital pharmacy internship. Strong understanding of GMP/CPOB and pharmaceutical manufacturing processes (mixing, formulation, packaging), combined with attention to detail and accurate documentation skills. Seeking to build a career in Analytical Development, contributing to the development and optimization of reliable analytical methods for pharmaceutical products.

Education Level

Diponegoro University - Semarang, Indonesia Aug, 2022 - June, 2026
Bachelor Degree of Pharmacy, 3.31/4.00

- Proved active participation, initiative, and strong teamwork skills across various courses and group projects.
- Finished an undergraduate thesis titled “High Alert Medication Storage Evaluation at Puskesmas in Semarang City”.
- Relevant Courseworks: Good Manufacturing Practice (GMP/CPOB), Solid Dosage Form Technology, Solid Dosage Form Technology, and Pharmaceutical Microbiology.

Experiences

Department of Pharmacy – Diponegoro University Jan, 2025 – June, 2026
Teaching Assistant for Liquid and Semi Solid Dosage Form Technology Laboratory

- Guided pharmacy students in formulating various pharmaceutical preparations, including gels, emulsions, suspensions, creams, and ointments.
- Supervised laboratory sessions, ensured compliance with standard procedures, and provided guidance on pharmaceutical concepts.
- Prepared and organized laboratory materials and equipment to support smooth and efficient practical sessions.

Teaching Assistant for Pharmacokinetics and Biopharmaceutics Laboratory

- Facilitated laboratory sessions covering in vitro absorption testing, dissolution assays, and pharmacokinetic calculations.
- Ensured accuracy in practical procedures and assisted students in performing calculations and interpreting data.
- Guided students in data analysis and supported the accurate documentation of practical results.

Dr. Suyoto Hospital, Ministry of Defense - Jakarta, Indonesia Dec, 2024 - Jan, 2025
Pharmacy Intern

- Inspected incoming stock from distributors, verifying packaging condition, batch numbers, and invoice completeness to ensure compliance with quality standards.
- Maintained organized drug flow following FEFO/FIFO principles, closely monitored expiration dates, and ensured proper storage and segregation of LASA and High Alert medications.
- Conducted inventory planning analysis using the ABC method to evaluate drug usage patterns, optimize stock levels, and support cost effective purchasing decisions.

Project Experiences

Community Service Program (KKN) – Diponegoro University May, 2025 - Aug, 2025
Program Initiator & Facilitator

- Initiated and led an educational program teaching students about packaging claims and labeling regulations for herbal medicine (jamu) products.
- Delivered training materials on primary packaging design and compliant health/product claims for "Herbal Shot," a herbal product.
- Guided students from a local foundation (yayasan) in designing their own product packaging and labeling.

Organization Experiences

Pharmacy Student Association - Diponegoro University Jan, 2023 - Dec, 2024
Head of Student Welfare Advocacy Division

- Planned and coordinated welfare programs by mapping student needs, allocating limited resources, and setting priorities to ensure programs ran on schedule and within budget.
- Acted as a liaison between students and faculty/institution, gathering input, forecasting potential issues, and proposing solutions before they escalated.
- Managed cross division coordination and timelines to ensure advocacy programs and initiatives were delivered efficiently and on target.

Training and Certifications

Basic Student Leadership and Management Training - Diponegoro University
June, 2023 – Nov, 2023

- Participant
- Strengthened leadership, strategic planning, and decision-making skills.
 - Practiced managing student programs/projects through simulation and group activities.

Pre-Basic Student Leadership and Management Training - Diponegoro University
Sep, 2022 – Feb, 2023

- Participant
- Developed foundational skills in organizational management, teamwork, and communication.
 - Learned basic principles of leadership and problem solving in a student organization context.

Skills

Technical skills: Microsoft Excel (Basic-Intermediate): formulas data validation, PivotTables (currently developing), Microsoft Word, Microsoft Powerpoint.

Laboratory & Documentation Skills:

- Accustomed to working under strict SOP and laboratory protocols, developed through academic practicum.
- Strong attention to detail in documentation, demonstrated through systematic laboratory reports and thesis writing.
- Familiar with basic laboratory instruments (analytical balance, pH meter, viscometer).
- Capable of accurate pipetting and basic testing/analytical procedures.
- Familiarity with product labeling and regulatory claim compliance (GMP/CPOB, BPOM).

Soft skills: Attention to Detail, Communication, Time Management, Analytical Thinking, Problem Solving.

Languages: English (Intermediate), Bahasa Indonesia (Native).
