EXECUTIVE SUMMARY

Licensed Pharmacist (Apothecary) graduate from Universitas Indonesia with experience in regulatory compliance, drug registration processes, and quality documentation within pharmaceutical manufacturing settings. Knowledgeable in GMP/CPOB and GDP/CDOB standards, CAPA management, and batch record review. Detail-oriented and analytical, committed to supporting regulatory submissions and ensuring full compliance with pharmaceutical regulations and quality standards.

EDUCATION

Apothecary Professional Degree, Universitas Indonesia 2024 - 2025

- GPA: 3.84/4.00 - Cum Laude

Bachelor of Pharmacy, Universitas Indonesia 2020 - 2024

- GPA: 3.62/4.00 – Cum Laude
- Final Project Research Area: Pharmacology Pharmacy (Evaluation of Nutmeg Seed Essential Oil (*Myristica Fragrans* Houtt.) Activity as Oral Anti-Candidiasis in Wistar Male Rats (*Rattus Norvegicus*))

WORKING EXPERIENCES

Intern Pharmacist, Puskesmas Cakung April 2025

- Conducted cost evaluation of drug procurement for patients in the Referral Return Program (PRB) by analyzing BPJS Health drug claims at Cakung Subdistrict Public Health Center (2024).
- Prepared and dispensed medications, performed prescription screening, ensured regulatory compliance, and managed pharmaceutical documentation and inventory for outpatient and TB clinic services.
- Delivered community health education sessions on medication use and drug interactions in hypertension and diabetes management at the public health center.

Intern Pharmacist, Apotek Kimia Farma Juanda Bogor March 2025

- Conducted Home Pharmacy Care services for patients with Diabetes Mellitus complications at Kimia Farma Juanda, Bogor, including medication review, therapy monitoring, and patient adherence support.
- Performed comprehensive prescription screening (administrative, pharmaceutical, and clinical review) for Referral Return Program (PRB) patients, dispensed medications accurately, and provided discharge counseling to ensure safe and effective medication use for outpatients.
- Managed receiving, stock verification, and inventory control of pharmaceutical products in the warehouse to maintain availability and compliance with storage standards.

Intern Pharmacist, Rumah Sakit Universitas Indonesia, Depok January – February 2025

- Conducted a study on potential incompatibilities in intravenous drug administration among Intensive Care Unit (ICU) patients at Universitas Indonesia Hospital (January–March 2024), focusing on identification and risk assessment of IV drug interactions.
- Prepared, dispensed, and documented medications for inpatient and outpatient departments, Intensive Care Unit (ICU), Emergency Department (IGD), and Operating Theater (OK), including fulfilling requests for medications and disposable medical supplies in the pharmacy warehouse.
- Prepared sterile medications and medical supplies in the production unit and Central Sterile Supply Department (CSSD) in compliance with aseptic technique and hospital safety standards.

Intern Pharmacist, Quality Assurance PT Global Onkolab Farma November – December 2024

- Analyzed drug registration, returned product handling, and drug recall procedures at PT Global Onkolab Farma, including evaluation of compliance with regulatory requirements and Good Manufacturing Practices (GMP/CPOB) standards.
- Reviewed batch production records to ensure accuracy, completeness, and compliance with GMP/CPOB requirements.
- Participated in cross-departmental induction programs covering Production, Logistics, Quality Control (QC), Human Capital Officer (HCO), Management System & Technology Development (MSTD), Technical Service (TS), and Quality System (QS) to understand integrated pharmaceutical manufacturing processes.

Intern Pharmacist, Quality Assurance PT Global Chemindo Megatrading October 2024

- Conducted validation of pharmaceutical raw material deliveries stored at 15–25°C at PT Global Chemindo Megatrading to ensure compliance with storage requirements and quality standards.
- Developed and executed Corrective and Preventive Actions (CAPA) to address quality deviations and support continuous quality improvement.
- Performed temperature qualification and routine warehouse temperature monitoring, including trend analysis, to ensure product stability and compliance with Good Distribution Practices (GDP/CDOB).

ORGANIZATIONAL AND VOLUNTEERING EXPERIENCES

Pharmacology Laboratory Assistant, Universitas Indonesia February – May 2024

- Assisted in supervising laboratory practical sessions for undergraduate students, ensuring compliance with laboratory safety and standard operating procedures (SOP).
- Supported preparation of laboratory materials, reagents, and documentation for pharmacology experiments.
- Guided students in data collection, analysis, and interpretation of experimental results.

Media and Publication Vice Head, BPM FF UI February 2022 – March 2023

- Coordinated media and publication strategies to support organizational programs and events.
- Managed social media content planning, design, and publication to increase engagement and outreach.
- Collaborated with internal teams to ensure timely dissemination of official information.
