English

ABOUT ME

I am a working hard person, I love to share my knowledge to the other people and meet new people. Therefore, I joined to teach English in Thailand as a Global Volunteer and also guide my team to do the work as good as possible. My experiences had enabled me to develop my skills in public speaking and also the ability to work under pressure. I am able to work well both on my own initiative and as part of team. My main strength are adaptability and determination to get a job done. I try to learn something new from every experience because I believe there is always room for self-improvement both personally and personality.
