SUMMARY

Production Operations professional with over 6 years of experience in pharmaceutical manufacturing, specializing in executing production processes, maintaining product quality, and ensuring compliance with standard operating procedures. Skilled in operating production machinery, handling production documentation, and supporting end-to-end manufacturing workflows. Known for maintaining consistency in output, supporting daily production targets, and adapting quickly to operational demands in fast-paced environments.

EXPERIENCE

Production Operator & Inspector

PT Darya Varia Laboratoria Tbk. | 2021 – 2025

- Completed and calculated production documentation (Prosedur Pembuatan Obat / PP) accurately and in a timely manner
- Assisted in preparing daily operational reports to support production tracking
- Operated production machinery and equipment in line with operational standards
- Performed product inspections to ensure readiness for the next production stage
- Monitored product quality regularly throughout the production process to maintain compliance
- Ensured consistent documentation accuracy aligned with production requirements
- Supported stable production output by maintaining adherence to SOP and quality standards
- Contributed to maintaining product consistency across multiple production stages

Production Helper

PT MSS | 2019 – 2021

- Executed production processes in accordance with established SOPs to ensure smooth operations
- Performed manual sorting of pharmaceutical products to maintain quality standards
- Prepared and transferred products to subsequent production stages efficiently
- Conducted primary packaging processes with attention to detail and accuracy
- Maintained productivity and ensured product quality throughout the production cycle
- Consistently supported daily production activities with minimal supervision
- Maintained accuracy in sorting and packaging processes, reducing rework risk
- Contributed to smooth workflow between production stages

EDUCATION

Universitas Dian Nusantara | 2025

Bachelor's Degree in Accounting

SKILLS

- **Technical Skills:** Production Operations, SOP Compliance, Pharmaceutical Production Process, Production Documentation (PP), Machine Operation, Quality Inspection, Product Packaging, Reporting
- **Soft Skills:** Teamwork, Attention to Detail, Adaptability, Time Management, Fast Learning, Communication
- **Languages:** Indonesian (Native), English (Basic)
