

Andryan Yuslan Arbie Salim

0896-2817-8000 | andryansalim@gmail.com | Jakarta, Indonesia

PROFILE

A Pharmacist (Apoteker) certified in 2024 with versatile expertise spanning high-volume operations, strict regulatory compliance (GDP/CPOB principles), and quality control. Proven track record of managing over 150 daily patient services and high-precision inventory systems with a strict zero-error record. Adept at bridging operational efficiency, cross-functional leadership, and data-driven inventory management. Highly adaptable and eager to contribute to dynamic roles across the healthcare, digital pharmacy, pharmaceutical manufacturing, and FMCG sectors.

PROFESSIONAL EXPERIENCES

RSUD Koja

Pharmacist (Internship)

2024

- Performed clinical pharmacy services to patients, including drug prescription reviews, drug dispensing, drug information service, counseling, drug therapy monitoring, and drug side effects monitoring.
- Carried out drug warehouse management, including categorizing stock, monitoring stock levels, and conducting audits to reconcile actual stock with recorded quantities – preventing shortage and overstock situations.

Lembaga Biologi Vaksin Puskesmas Angkatan Darat

Pharmacist (Internship)

2024

- Observed end-to-end flow of making sterile preparations for the hepatitis B vaccine according to the CPOB guidelines and gained an understanding of safety protocols to maintain high standards in sterile compounding.

Puskesmas Kecamatan Sawah Besar

Pharmacist (Internship)

2024

- Assisted patients in self-medication, drug therapy, drug monitoring & evaluation, and counseling, ensuring patients perform safe practices and receive comprehensive support.

PBF (Pedagang Besar Farmasi) Penta Valent Jakarta 1

Pharmacist (Internship)

2024

- Supported in managing the healthcare supply chain, ensuring medicines and healthcare products reach pharmacies, hospitals, and healthcare facilities efficiently according to the Good Distribution Practices (GDP).
- Involved in logistics & warehouse management, ensuring stock levels meet the market demand without overstocking and timely delivery to the clients.

Apotek Roxy

Pharmacist (Internship)

2023

- Provided self-medication to patients using over-the-counter products and drug information services (PIO).
- Handled documentation & reporting process on SIPNAP (Sistem Pelaporan Narkotika dan Psikotropika).
- Managed stock drugs & pharmaceutical supplies, including recording, storing, and distributing.

Apotek Cipete Raya

Pharmaceutical Management & Technical Staff

2022 – 2025

- Responsible for providing pharmaceutical services, including drug dispensing & compounding (prescription & non-prescription drugs), delivering drug information services, managing stock of drugs & pharmaceutical supplies, and ensuring financial transparency on daily transaction processes.

PT. Sehat Bakti Sentosa — Apotek Mitra Halodoc.

Pharmacist.

2026 – Now

- Managed end-to-end digital pharmacy order fulfillment workflows, ensuring fast, accurate packing and dispatching for e-commerce and telemedicine platforms.
- Resolved customer inquiries, delivery issues, and medication consultations online, maintaining a high satisfaction rating and adherence to digital pharmacy service standards.
- Collaborated with courier partners (Medex) and internal operations teams to streamline same-day delivery logistics and reduce order processing times.
- Ensured strict compliance with regulatory standards and Good Pharmacy Practice (GPP) for all online transactions, digital prescriptions, and teleconsultation records.
- Analyzed daily sales and inventory turnover reports to identify fast-moving digital products and minimize stockouts or near-expiry items.
- Tracked key performance indicators (KPIs) for online order processing speeds, continuously reducing fulfillment turnaround time and improving delivery success rates.
- Coordinated with telemedicine platform support and medical teams to quickly clarify ambiguous digital prescriptions and resolve patient medication issues safely.

- Maintained a zero-complaint record for prescription fulfillment and delivery accuracy, enforcing rigorous verification protocols to completely eliminate medication errors and missing items across over 150 daily digital transactions.
