Informatics Graduate (GPA 3.83) with experience in web application development, system validation, database management, and technical documentation. Skilled in Laravel, MySQL, software testing, troubleshooting, and creating user documentation to support system implementation and maintenance. Proven ability to develop and validate web-based systems while ensuring functionality, data accuracy, and operational efficiency. Strong analytical, problem-solving, and teamwork skills with a willingness to learn and adapt to new technologies. Seeking opportunities to contribute to IT support, application support, software development, quality assurance, technical writing, and other related IT roles

EDUCATION

Sep 2021 - Jun 2025

Universitas PGRI Semarang

Informatics (3.83/4.00)

Built a strong foundation in software development, database management, system analysis, and IT operations through academic projects and practical experience. Developed analytical, technical, and problem-solving skills applicable to software development, application support, and IT support roles

EXPERIENCE

Nov 2025 - May 2026

PT Bonecom Tricom

IT Staff

- Managed, validated, and maintained system and operational data to ensure accuracy, consistency, and reliability
- Analyzed production workflows to identify system issues and validate application data against operational processes
- Developed and maintained daily IT monitoring checksheets to support operational monitoring, system validation, and reporting
- Created system documentation and user manuals (manual books) to support application usage, implementation, and maintenance

Campus Digital

Jan 2024 - Apr 2024

Web Developer

- Migrated legacy web applications from CodeIgniter (CI) to Laravel to improve system scalability and maintainability
- Assisted in web application development, including UI enhancements, feature implementation, and website optimization
- Developed CRUD features, authentication, form validation, database migration, and data management using Laravel
- Improved frontend interface and responsiveness using HTML, CSS, Bootstrap, and DataTables
- Performed software testing, bug fixing, and troubleshooting to improve application functionality and user experience
- Prepared technical documentation and project reports to support system development, implementation, and maintenance

Independent Study - Dicoding Indonesia

Jul 2023 - Dec 2023

Full Stack

- Built web-based applications and projects using Laravel, MySQL, JavaScript, HTML, and CSS
- Applied software engineering best practices, including version control, responsive design, and backend development
- Collaborated with mentors and peers to complete projects and assignments on schedule
- Developed a capstone/final project as part of the Full Stack Web Development program
- Learned cloud computing, DevOps, CI/CD, microservices architecture, and backend development fundamentals

PROJECTS & ACTIVITES

International Service Learning (ISL) - Malaysia Dec 2024

Participant

- Engaged in educational and social activities for community development
- Strengthened cross-cultural communication and teamwork
- Contributed to social projects through technology and educational programs

PKM PM - Best Team Award Jan 2023 - Apr 2023

Team Leader

- Led the project "*Youth Cadre Against Sexual Violence: IT-Based Approach and Inclusion to Create Quality Human Resources*"
